Release 1.0 Service Pack 49

Corrected Issues

N/A

Added Features

JR-172*:* Import for New Florida DL File Now Uses Old DL Number for Juror Matching

> ***Request Details:*** Updated the import process for the new Florida DL file to use the old DL number when identifying juror matches.
>
> ***Resolution:*** Added support for uploading the new Florida DL file. The system now uses the old DL number for matching jurors, ensuring compatibility with the new format. Additionally, the DL number is updated based on the matching provided in the Florida file. No configuration changes are required; users should continue using the existing DL-based matching configuration

Release 1.0 Service Pack 48

Corrected Issues

N/A

Added Features

JR-176: Update .NET Framework to 4.8

Request Details: Jurymark Client should be updated to .NET Framework 4.8

> ***Resolution:*** Jurymark Client was updated

Release 1.0 Service Pack 47

Corrected Issues

JR-149: Documents Submitted by Jurors on the Web were not Displayed.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Expected Result: Documents sent by the jurors from the website should be displayed in the Pools workspace.

Resolution: Fixed issue where documents submitted by jurors from the web were not displayed in the Pools workspace. Now the documents are displayed without throwing any error when viewing the documents.

JR-167: Juror Questionnaire Responses from JuryWeb

Expected Result: Questionnaire responses should not be deleted. Excusals can be requested/applied for a variety of reasons, and they can also be misapplied; this should not delete the juror's responses.

Resolution: Fixed issue where after a juror excusal request was processed, even if the request was denied, the juror's answers were deleted from the QuestionnaireResponse table.

Added Features

N/A

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0 Service Pack 46

Corrected Issues

110083: Jurymark Not Retaining 'Donate Pay' Flag

Expected Result: Moving a juror from one pool to another should carry over the donate pay flag value when this value was previously added using the kiosk.

Resolution: Fixed issue where setting **SkipKioskPayQuestionsIfJurorAnsweredPreviously** was not carrying over the donate pay flag when a juror was moved from one pool to another.

110287: Juror Notification History Records Tie to JurorID Instead of PoolJurorID

Expected Result: In Jurors screen -> History tab, Pool ID column should populate the pool juror Id in the juror history grid.

Resolution: Fixed issue where history records for email and text notifications were saving JurorId in the PoolJurorId column.

110338: Error for Reporting Status over the Weekend for Monday Pools.

Expected Result: Reporting status over the weekend for Monday pool should allow the system to show a correct status.

Resolution: Fixed issue where reporting status was not returning correct information.

110588: Debit Card IDs Do Not Carry Over to New PoolJurorID When Jurors Move Pools

Expected Result: Moving a juror from one pool to another should carry over the debit card information set previously.

Resolution: Fixed issue where debit card Information was not retained when moving jurors from one pool to another.

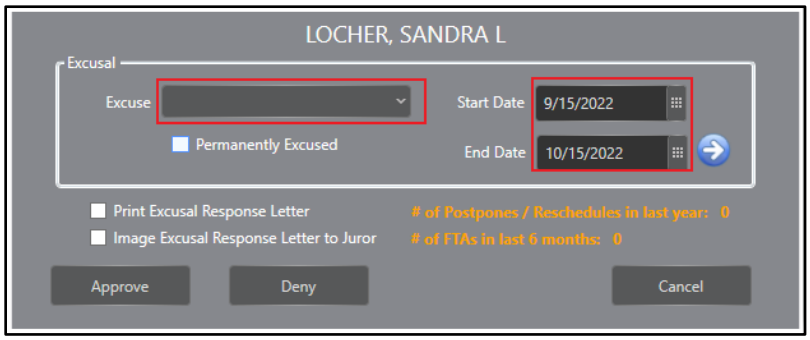

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Added Features

11642: Clear Prior Excusal Status and Dates when a Juror is Added to a New Pool

Request Details: Users would like that when a juror is added to a new pool, their old excuse information should be automatically cleared out.

Resolution: Setting **ClearJurorExcuseWhenAddedToPool** was added, if true, juror excusal status field will be cleared, and excusal dates will be restored when juror is randomly added to a pool (not when moved or manually added).

14646: Add Ability to Set Allowed Deferred Days Based on Pool Type

Request Details: Users would like the ability to dictate Allowed Deferred Days based on Pool Type. Current setting **AllowedDeferredDays** applies to all pool.

Resolution: Added the ability to control deferred days by adding the property "Allowed Deferred Days" in the Pool Type, if there is a value entered for a specific Pool Type then it will be used, otherwise, any Pool Type where there is no value will use the AllowedDeferredDays value set instead. Days of the week allowed for deferred/rescheduled jurors: m=Mon, t=Tue, w=Wed, r=Thurs, f=Fri, s=Sat, n=Sun. To allow all days enter mtwrfsn.

Requires Admin Configuration.

14729: Add a Line to App Log When User Clicks "Re-Order Jurors" Button

Request Details: Users would like the ability to add a line to app log after clicking the "Re-Order Juror" button in the panels workspace.

Resolution: After clicking the "Re-Order Juror" button in the panels workspace the system will add a line in the app log in the next format: ReOrderJurors: panelid=xxxx.

14730: Add a Setting to Hide/Show BarcodeID Column

Request Details: Users would like the ability to show or hide the Barcode ID column in the next workspaces: pools, check-in, panel, attendance, and payment.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Resolution: Added setting **HideBarCodeColumn**, when set to True, the Barcode ID column won´t be displayed in the next workspaces, pools, check-in, panel, attendance, and payment.

14971: Update Email Address Fields to Remove Case Sensitivity

Request Details: Users would like that the Email Address & Confirm Email Address Fields no longer be case sensitive to avoid mismatch.

Resolution: Fixed issue where Email and Confirm Email comparison fields were case sensitive, now fields are no longer case sensitive and only accept lower case letters in the next workspaces: Excusal Request, Subscription and Questionnaire.

15083: Import Functionality to Skip Address Updates for Jurors

Request Details: Users would like a new functionality that allow the import process to skip updating addresses for jurors in current and future pools.

Resolution: Added setting **SkipAddressUpdateOnExistingPools**, if false, the system will update all juror addresses during import, if true, the system will skip jurors where the pool start or end date is greater than the date of the import.

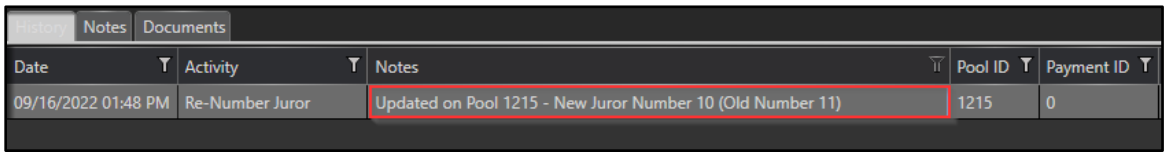

Address updates include the following fields: Address 1, Address 2, City, State, Zip, Residential Address1, Residential Address2, Residential City, Residential State, and Residential Zip.

15159: Add a History Record When the Juror Numbers are Re-Ordered

Request Details: Users would like that a history record gets added after re-ordering the juror numbers by clicking the Re-number Jurors button in the Pools workspace.

Resolution: Added logic so when renumbering jurors in a pool now adds history records for jurors that had numbers change. See the example below.

History record added for a juror that had numbers change:

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0 Service Pack 45

Corrected Issues

109493: Updating Juror Status to ‘Failed to Appear’ Generates Excusal Notifications

Expected Result: Updating a juror's status to 'Failed to Appear' in the Juror’s workspace should not generate an excusal notification.

Resolution: Updating a juror's status to 'Failed to Appear' will no longer generate an excusal notification.

109502: Lookup List "Home" Button Shows Wrong Icon Instead of the Jurymark Icon

Expected Result: Home button shown within Lookup List workspace should show Jurymark scale icon.

Resolution: Fixed issue where home button shown within Lookup Lists workspace was not the Jurymark scale icon.

109550*:* Employer Paid/Donate Pay Status Removed When Checking In Returning Jurors via Kiosk

Expected Result: Employer paid and donate pay information should carry over when returning jurors check-in via Kiosk.

Resolution: Employer paid and donate status will no longer reset when setting: SkipKioskPayQuestionsIfJurorAnsweredPreviously is true and jurors check-in with the Kiosk.

109553: Posting Checks More Than Once Will Keep Adding Funds to Debit Cards

Expected Result: Clicking the green check mark button to issue payments should not add funds to debit card payments already issued.

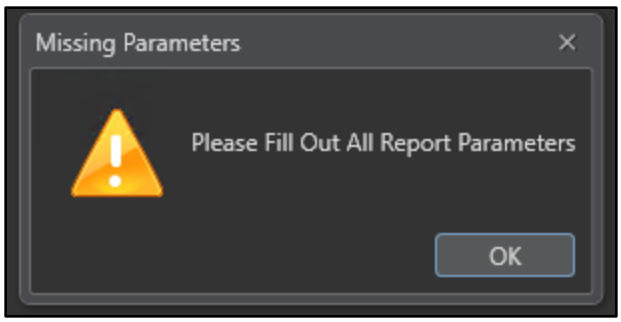

Resolution: Added logic to allow processing 'fund debit cards and digital payments' again when batch contains checks that got previous errors, only checks in the batch with errors will get funded.

109565: Incorrect Spelling in Missing Parameters Warning Message

Expected Result: Missing parameters warning should show the correct spelling of the word parameter when trying to run a report without the required parameters.

Resolution: Fixed spelling error for missing report parameters warning.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

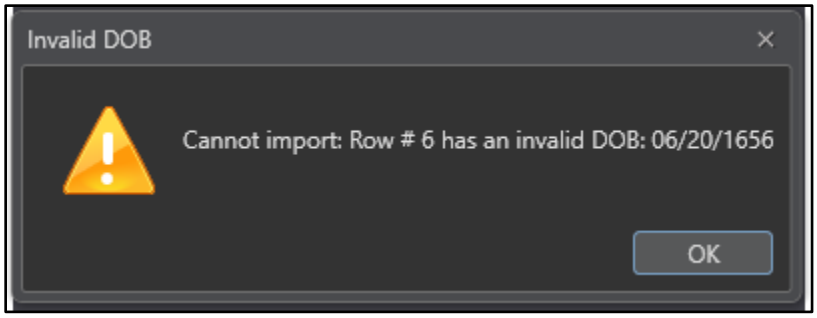

Added Features

14507: Deceased Import: Add Row Number to Error Message

Request Details: Users would like to see row number causing an issue when error is encountered during deceased import.

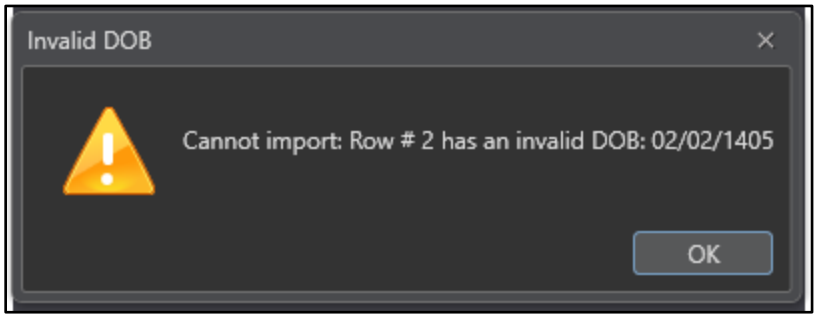

Resolution: Row number will now show in Error message if there is an issue when importing deceased jurors.

14508: Felon Import: Add Row Number to Error Message

Request Details: Users would like to see row number causing an issue when error is encountered during convicted felon import.

Resolution: Row number will now show in Error message if there is an issue when importing convicted felons.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0 Service Pack 43

Corrected Issues

N/A

Added Features

14131: Set Excuse for Felon Juror Import Based on Permanent/Temporary Value for that Juror Status

Request Details: Users would like to set Excuse permanently for felon juror import based on permanent/temporary value for that juror status.

Resolution: Felon juror Import will now set Excuse permanently based on value from Juror Statuses for felon type and if temporary, it will set the Start Date value according to the import date and the End Date value based on default months set for that juror status.

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0 Service Pack 42

Corrected Issues

108887: Kiosk Restarts Throughout the Day Instead of Once a Day and Get Errors

Expected Result: Kiosk should not restart throughout the day and should not throw errors.

Resolution: Added setting **KioskRestartTimes**, comma delimited list of times of day to restart Kiosk. Example: 7.30am, 10:30am, 1:30pm. Jury mark must be running at least 30 minutes before it restarts.

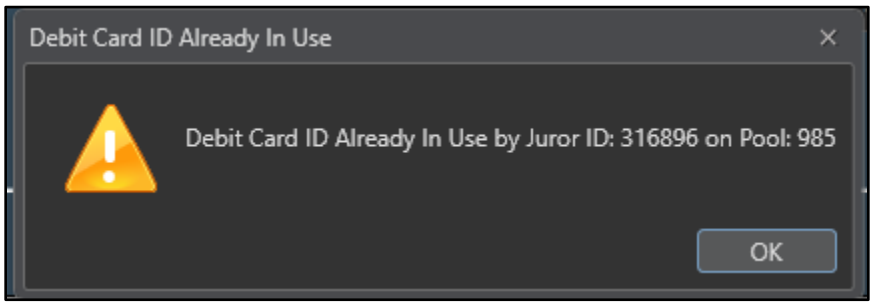

Requires Admin Configuration.

109372: Same Debit Card Issued to Two Jurors

Expected Result: Same debit card should not be assigned to two different jurors.

Resolution: Debit Card numbers are now checked to prevent more than one juror using the same number.

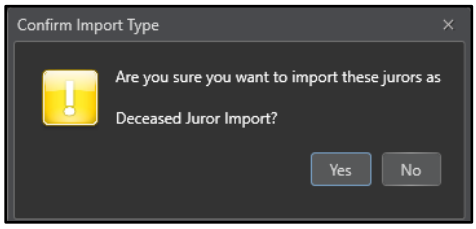

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Added Features

14199: New Pop-Up Message for Juror Importing Process

Request Details: Add a pop-up message that appears upon clicking the step 4 button of the juror import process.

Resolution: Added pop-up message which appears after clicking the step 4 button of the juror import process from the Import Jurors workspace. When clicking “No” from the pop-up message it brings you back to the same screen, by clicking yes it will complete the import juror process.

14210: Allow Importing of Other Image Types Besides TIF and PDF Files

Request Details: Users would like to be able to import other image types besides TIF and PDF files to juror documents.

Resolution: Added ability to import JPG, PNG, and BMP images to juror documents. The imported images will get converted to black and white TIF files.

14296: Add Payment Date to Check Number Import File Functionality

Request Details: Users would like the payment date added to the check number import file functionality.

Resolution: Added ability to include Payment Date in check import file, this can be included at the end of line after check number.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0 Service Pack 41

Corrected Issues

109097: Adding Double the Number of Jurors to a Pool

Expected Result: The number of jurors requested should not double when users double click on the add jurors to pool/panel buttons.

Resolution: Fixed issue were double-clicking the add jurors to pool/panel buttons could add more than the amount requested.

109132: Juror Date Last Summoned Does Not Update When Juror is Added to Pool Manually

Expected Result: When a juror is added to a pool manually, the Last Summoned Date field should be updated with the new pool start date.

Resolution: Fixed issue where Date Last Summoned was not updated when a juror was added to a pool manually.

109146: Address Change History Record is not Added Before Excusal

Expected Result: When a user changes the address immediately before excusal, the changed address history record should be added.

Resolution: Fixed issue where address change history record was not added if the excusal window was shown after the address changes were made.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Added Features

13861: Turn Off Debit Card Barcode Scan When Employer paid

Request Details: Users would like the ability to turn off debit card scan when clerk says yes to employer paid prompt.

Resolution: Added setting **SkipDebitCardReadIFEmployeerPaid**. When set to true, Debit Card Barcode Scan will not turn on for jurors that are employer paid.

Requires Admin Configuration.

13862: Add Email/Text Notification Prompt When Entering Excusals

Request Details: Add setting to turn on prompt to ask if jurors should be notified when clerks enter excusals.

Resolution: Added setting **PromptToNotifyJurorsForExcusals**. When set to true, user will be prompted to send text/email notifications to jurors when an excuse is approved or denied.

Requires Admin Configuration.

14137: Add History Records When Reporting Notifications are Sent

Request Details: Users would like to have history record added when Email and Text notifications are sent to jurors.

Resolution: Email and Text notifications for reporting status will now be added to juror history.

14210: Allow Importing Importing Other Image Types Besides Tif and Pdf

Request Details: Users would like to have history record added when Email and Text notifications are sent to jurors.

Resolution: Added ability to import jpg, png, and bmp images to juror documents.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0 Service Pack 40

Corrected Issues

108958: Searching for Outstanding Payments by Date Range can Generate Error

> ***Expected Result:*** Searching for outstanding payments by date range should not throw an error.
>
> ***Resolution:*** Fixed an issue where searching for outstanding payments by date range could generate an error.

Added Features

N/A

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0 Service Pack 39

Corrected Issues

108775: Outstanding Amount Does Not Update When Removing Juror(s) from Payment Screen

Expected Result: If a juror is removed from the outstanding payments screen, the outstanding amount should update to reflect the new total.

Resolution: Fixed an issue where outstanding balance would not update when removing jurors.

108836: Duplicate Seat Numbers in Panel Despite Not Filling In Seats

Expected Result: Seat numbers should not duplicate when adding new jurors to a panel when the 'fill seats' box is not checked.

Resolution: Added new setting **SkipFillingInactivePanelJurorSeatsAtEndOfPanel.** When 'True' and not filling gaps, when adding new panel jurors it will skip inactive jurors when assigning new seat numbers.

Requires Admin Configuration.

108842: Jurymark Import Jurors Crashing on DMV File

Expected Result: Jury import files that contain errors should throw a warning to the user describing where the issue is.

Resolution: Row number will now show in Error message if there is an issue when importing jurors using the Florida format.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Added Features

13562: Add NotifyLevel Column to Pool and Panel Workspaces

Request Details: Show the juror's notify level on the pool and panel grids.

Resolution: Added setting **ShowNotifyByColumnInPoolAndPanelGrids**. When 'true', the juror notify by setting will be shown in the pool and panel grids.

Requires Admin Configuration.

13595: Returning Jurors Change Request

Request Details: Allow returning jurors to perform self-check-in at the jury kiosks. The system should recognize that the juror is empaneled or checked-in on.

Resolution: Added setting **SkipKioskPayQuestionsIfJurorAnsweredPreviously**. When 'true', payment questions are skipped on kiosk if juror is currently on a panel or checked in recently.

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0 Service Pack 38

Corrected Issues

108402: Reporting Notifications Sent from Pool Screen Indicate On Call Instead of Required To Report

Request Details: Fix issue where notifications sent from the pool screen would send the On Call message instead of Required to Report message to the juror when it should be the latter after the desired time.

Resolution: Fixed issue having the Required to Report message be sent any time after the time set in setting **OfficeCloseTime** on the day before the required appearance.

106450: Mailing address for checks fails to carry over for additional days

Request Details: Fix issue where address assigned to jurors for checks does not carry over when jurors moved from a pool.

Resolution: Fixed issue having Mail Check to Address carry over when jurors moved from a pool.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Added Features

13483: Add Custom Boolean Column to Check-In Workspace

Request Details: Add optional true/false columns to check in workspace that can be turned on/off through a setting value. Add ability to customize column title.

Resolution: Added new Settings: **CustomLabel1**, **CustomLabel2**, and **CustomLabel3 –** Labels for custom PoolJuror field to show on check-in screen. Only visible if it has a value.

11519: Add Ability to Randomly Assign Jurors to Groups

Request Details: Jurors in a called off group are currently able to sign in from the check in screen when the group is set to all jurors. Add a setting to warn or prevent them from signing in.

Resolution: Added new Setting **CheckInCalledOffGroupValidation** which handles Jurors in called off groups when they try to check in: 0 – do nothing; 1- warn; 2- prevent check in.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0 Service Pack 36

Corrected Issues

108141: Voided Check Not Appearing on Payment Export

Expected Result: Voiding and Un-voiding an Unclaimed Funds check should not remove the check from the payment export report.

Resolution: Updated payment export reports to handle voided Unclaimed Funds checks and associated voided juror checks.

108199: Voided Check Creating History Records for All Checks

Expected Result: Voiding a check in a payment batch should only create a history record for the voided check.

Resolution: Fixed an issue where voiding a check in a payment batch would create a history record for every check in the batch.

108250: Postponed Juror Pool Placement Not Enforcing Jurisdiction

Expected Result: Postponed jurors should not be placed in a pool outside their configured jurisdiction or district.

Resolution: Fixed an issue where postponed jurors would be placed in a pool without checking for Jurisdiction or District.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Added Features

13462: Add PostponeDate as variable for Email Notifications

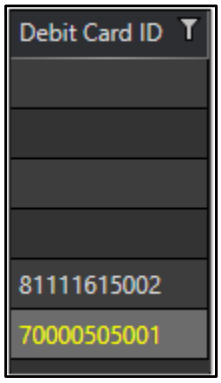

Request Details: Add postpone date variable to be referenced in the lookups so when a juror is postponed the message sent is 'Postponement Approved' specifically instead of 'Excuse Approved.'

Resolution: Added PostponementApprovedBody, PostponementApprovedSubject, and PostponementApprovedMessage to lookuplists to be referenced when a juror's excuse is flagged as rescheduled. All others will use ExcuseApprovedBody/Subject/Message.

12741: Rapid Disbursement Link Card

Request Details: Add a way to link a debit card to a juror to allow for rapid disbursement of funds.

Resolution: Added new setting **PayWithDebitCard**.
When 1, the Debit Card ID column will be added to the Check-in/Panels screens. After scanning a barcode, the barcode entry box will change to allow for Debit Card ID entry.
When 2, digital payments will be allowed, and the Skip Digital Pay column will show. When donate pay is checked/unchecked this will update to same value but can be changed afterwards. Skip Digital Pay column will show on payments grid so you can sort and remove jurors with different values since payment batches cannot include digital and not digital payments in the same batch. Setting **ConfirmDigitalPaymentBatch** added for this situation: if true, every time a payment batch is created you will be asked to create a digital payment batch or check batch.
When 0, debit card linking and digital payments will be disabled.

13343: Postponement Functionality to Keep Juror in Same Pool Type

Request Details: Add ability to restrict Jurors to same pool type when postponed.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Resolution: Added setting: **KeepPostponementsInSamePoolType**. When true, jurors that reschedule are restricted to pools with same pooltype.

13460: Add 'Fill in Seats' as an Optional Item when Adding Jurors to Panel Manually

Request Details: Add a 'Fill in Seats' check box to the pop-up box when manually adding Jurors to a panel to fill in empty seats rather than just adding them on.

Resolution: Added 'Fill in Seats' option when manually adding jurors to panel. Default set to unchecked.

13330: Add Alternate Question Field to Questionnaire Admin Items

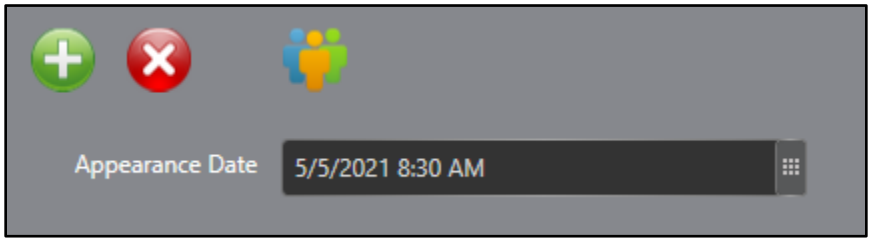

Request Details: Add a field in the QuestionnaireItem table where users can populate already existing Alternate Question column with desired text.

Resolution: Created a text box beneath the Question text box where users can enter desired text for the corresponding QuestionnairItem table column.

11519: Add Ability to Create Random Groups of Jurors from Their Corresponding Pool

Request Details: Users should be able to create a desired number of groups and have jurors automatically assigned to them from the pool at random.

Resolution: Created setting **ShowCreateRandomGroups**. When true, a button will appear on the groups pop-up window on the pools screen. The button will prompt for the desired number of groups and randomly assign jurors to them.

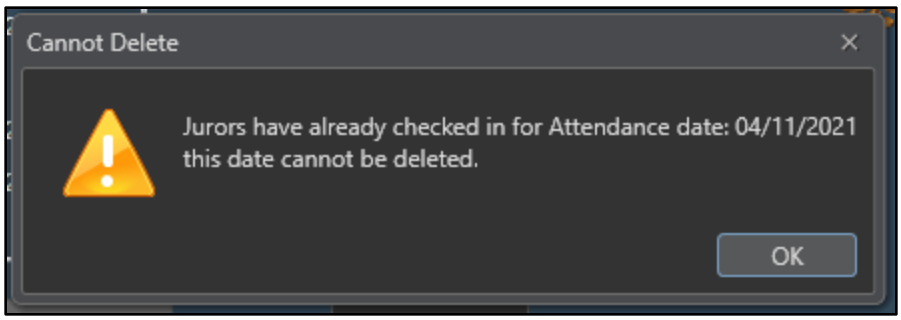

13289: Deleting Attendance Date with Checked-in Jurors

Request Details: Users should not be able to delete an attendance date for a pool when there are already checked-in jurors.

Resolution: Added a check for checked-in jurors before deleting an attendance date on the Check-in screen.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

13438: Postpone Date Email Variable

Request Details: Add {postponedate} as a variable for postponement emails.

Resolution: Added {postponedate} as an email variable for Juror notifications using the PostponementApprovedBody, PostponementApprovedSubject, and PostponementApprovedMessage Lookup Lists. Approving Juror Excuses that are flagged as rescheduled in the status table will now use these Lookup Lists as well.
All other approved excuses will use Lookup Lists ExcuseApprovedBody, ExcuseApprovedSubject, and ExcuseApprovedMessage.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0 Service Pack 28

Corrected Issues

107685: Check-in Auto Report Triggers on Click

Expected Result: Setting **CheckInAutoReport** should run the configured report on check-in, and not when clicking through the Check-In workspace.

Resolution: Fixed an issue where **CheckInAutoReport** would print extra labels when fields besides Check-In were changed.

107691: Check-in Kiosk Auto Report Error

Expected Result: Setting **CheckInAutoReport** should not cause an error if the report automatically run from the Check-In Kiosk was the first report run in that instance of Jurymark.

Resolution: Kiosk Auto Reports now work with setting **CheckInReportFirstRunDelay**. This setting controls the number of seconds to delay running the Check-In Auto Reports on first run to ensure that the report is loaded before attempting to print.

Requires Admin Configuration.

107751: Kiosk Agency Name Length

Expected Result: County agency names should not be cut off on the check-in kiosk screen.

Resolution: Fixed an issue with county agency names getting cut off on the check-in kiosk screen.

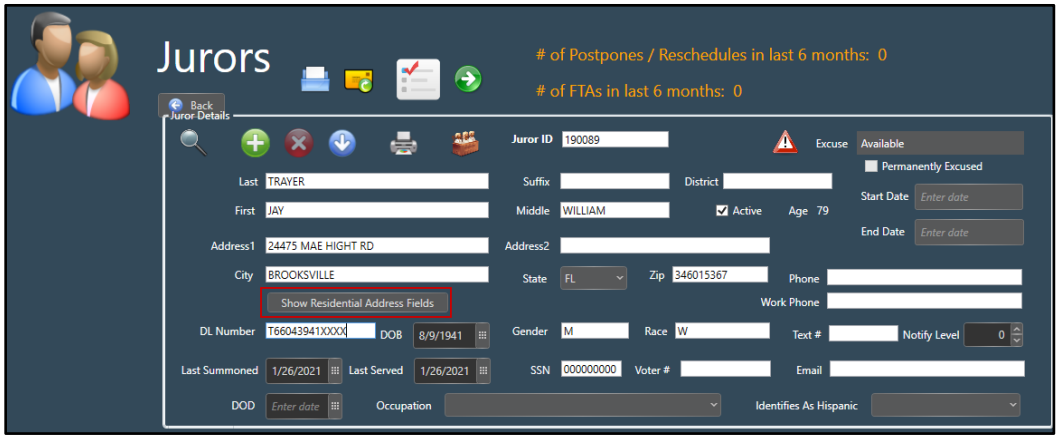

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Added Features

12148: Add Secondary Address Fields to Juror Workspace

Request Details: Add a field to the juror workspace to account for juror's residential address vs mailing address.

Resolution: Added setting **ShowResidentialAddressFields** to enable the residential address fields. This address will be used for mileage calculations.

Requires Admin Configuration.

12986: Juror Summoning Reset Date

Request Details: Add the ability to configure a reset date after which jurors who have already been summoned can be summoned again.

Resolution: Added new setting **JurorSelectionDate**. The value of this setting sets the month and day in month slash day format (e.g. 7/1 or 12/15) after which jurors that have been summoned will be eligible to be summoned again. For example, with a setting value of 7/1, this means that jurors who have checked in on 6/1 will be able to be summoned on 9/1, but jurors who have checked in on 8/1 will not be eligible for summoning on 9/1.

Requires Admin Configuration.

13028: Multiple Districts in Pool Type

Request Details: Allow multiple districts to be configured for Pool Types.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Resolution: Pool Types will now support multiple districts separated by a comma. Value ranges can be configured by first entering in a range and using F5 to expand the range. Note: this field does not support unexpanded ranges using '-'.

13090: Excusal Queue Default Months

Request Details: Excusals in the Excusal Queue should respect the configured excuse default length.

Resolution: Excusals done through the Excusal Queue will now use the default number of months based on the excuse type.

13118: Rapid Disbursement Defund Card

Request Details: Add a way to defund payments made through digital payments or through a juror's linked debit card.

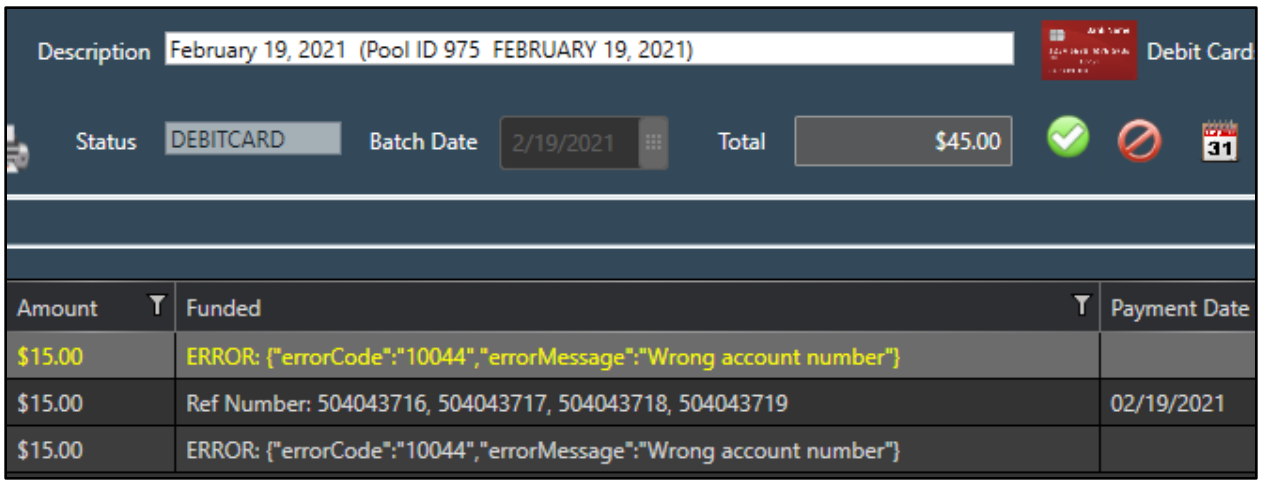

Resolution: Added new setting **PayWithDebitCard**. When 1 or 2, the buttons in Payments to void and un-void check payments will change to Void Selected Debit Cards and Un-Void Selected Debit Cards. Voiding checks that have been funded will make an online call to defund card or digital payments and un-voiding will re-fund the payment. After payments are voided or un-voided, successfully voided and un-voided payments will have their Funded fields changed to RefNumber: + {refnumber - This is the rapid solutions reference number to the last operation applied to account - fund/defund, etc...}. Failed voids and un-voids will update to ERROR: {error info}.

13119: Rapid Disbursement Fund Card

Request Details: Add a way to fund digital payments or a debit card linked to a juror to allow for rapid disbursement of funds.

Resolution: Added new setting **PayWithDebitCard**. When 1 or 2, the button in Payments to assign check numbers will be changed to Fund Debit Cards and Digital Payments. This button will trigger all digital and debit card payment processing and disbursement. Also adds a new Funded column to the Payments grid that displays funding status. After payments are funded, successful payments will have their Funded fields changed to RefNumber: + {refnumber - This is the rapid solutions reference number to the last operation applied to account - fund/defund, etc...}. Failed payments will update to ERROR: {error info}. When **PayWithDebitCard** is 0, standard check disbursements will be used.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

13122: SSRS Enable External Images

Request Details: Enable the ability to use external images on SSRS reports.

Resolution: SSRS reports that utilize external images can now be used.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0 Service Pack 25

Corrected Issues

107423: Deactivated Jurisdictions Not Disabled

Expected Result: Jurisdictions that are set to be inactive should not appear in menus that list active jurisdictions.

Resolution: Using the Jurisdictions table to set a jurisdiction as inactive will now correctly remove that jurisdiction from the Pools jurisdiction-selection dropdown menu, even through restarts of Jurymark.

107430: Jurisdiction Restrictions

Expected Result: Restriction a pool's jurors by jurisdiction needs to correctly exclude jurors that don't fall under that jurisdiction.

Resolution: Juror pools will now correctly only pull jurors from zip codes listed under the jurisdiction.

107489: Juror Notification Level Changing Automatically

Expected Result: Viewing a juror on the Jurors screen should not change the user's set notification level.

Resolution: Fixed an issue where viewing a juror with an email and a notification level of 0 on the Jurors screen would change the notification level.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Added Features

12696: Add Hold Pay Functionality to Account for Extended Voir Dire

Request Details: Add a pay setting that allows pay outs to individual jurors on a panel that are dismissed (not seated) to be paid even if the trial has not concluded.

Resolution: Added new setting **ShowHoldPanelPayOption**.

Setting Configuration Option:

0 = Hold pay option will NOT show on Panel and Payment Screens

1 = Hold pay option will show on Panel and Payment Screens – pay withheld only for (Seated) jurors on Panel

2 = Hold pay option will show on Panel and Payment Screens – pay withheld only for (Seated And Not Dismissed) jurors on Panel

3 = Hold pay option will show on Panel and Payment Screens – pay withheld only for (Seated and Not Dismissed) jurors on Panel

Not Dismissed = blank panel juror status or paneljurorstatus with programcontrol=pendingjuror

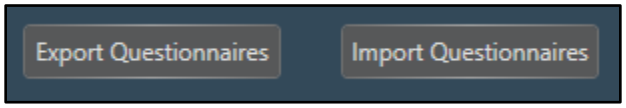

Requires Admin Configuration.

12702: Questionnaire Import/Export

Request Details: Users need the ability to copy and transfer full questionnaires between databases without manually entering all the information.

Resolution: Two new buttons have been added to the Questionnaire section in the Administration menu: Export Questionnaire and Import Questionnaire. These buttons allow users to create transferrable files with a questionnaire's information and upload them to any Jurymark database fully intact. Multiple files can be exported at the same time.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0 Service Pack 20

Corrected Issues

107206: Panel Juror Excuse status is not getting set when selecting excuse that defaults to permanent

Expected Result: Panel Juror Excuse status (for Counties based on two step summoning) is not getting set when selecting excuse that defaults to permanent.

Resolution: Fixed issue where panel juror excuse status is not getting set when selecting excuse that defaults to permanent.

Added Features

12437: Add Barcode Scanning Functionality to Attendance Workspace

Request Details: ability to scan juror barcodes to add them to an attendance date.

Resolution: Added JurorID/BarcodeID lookup box to Panel Attendance Screen to allow scanning of barcodes or entering of ids to do quick attendance Lookup behavior controlled by existing setting: **CheckinLookupUseJurorId** - if true, lookup scan box will use jurorid instead of barcode id to lookup jurors.

12629: Connection Password Encryption

Request Details: Users should have the ability to encrypt the passwords used to connect to their databases.
Resolution: Inserting the XML tag <UseEncryptedPassword>true</UseEncryptedPassword> into the given Connections file will provide the next user to log in with an encrypted connection password and instructions on how to replaced the unencrypted password with the new version.

12673: Add ability to see audit and override windows from case workspace

Request Details: Add ability to see audit and override windows from case workspace.

Resolution: Added Ability to see Audits on any screen using new hotkey: Ctrl + Alt + A (also fixed issue where not all records were being audited).

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0 Service Pack 19

Corrected Issues

106874: Check-In Auto Report

Expected Result: The Check-In auto report should run without error

Resolution: Added a delay to the check in auto report that ensures it's fully loaded before printing. Added new setting **CheckInReportFirstRunDelay**, the value of this setting controls how many seconds the system will delay before running the report.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Added Features

N/A

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0 Service Pack 18

Corrected Issues

106588: Incorrect Bulk Excusal History

Expected Result: The End Date of bulk excusals should be correct in the history.

Resolution: Fixed an issue when doing bulk excusals in the Barcode Status Update popup window where it would not show correct end date in History record when the setting **BarCodeStatusUpdateUseIndivJurorPoolDates** was true.

106833: Unable to delete questionnaire within Jurymark Client

Expected Result: unable to delete questionnaire.

Resolution: Code changes were made to delete the questionnaire items before deleting the Questionnaire itself.

106862: Blank Juror Label Printing

Expected Result: Autoprinted juror labels should not be blank.

Resolution: Fixed an issue where using setting **CheckInAutoReport** would print blank juror labels on checkin.

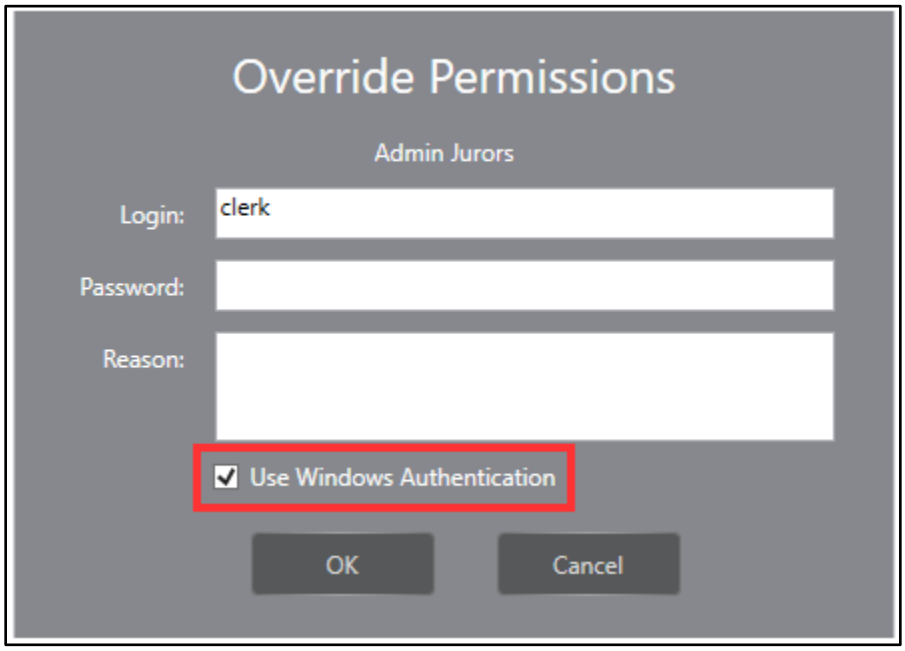

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Added Features

12207: Override Windows Active Directory Authentication

Request Details: Users would like the ability to use Windows Active Directory logins for override requests.

Resolution: Added 'Windows Authentication' checkbox to Jurymark administrator override requests. When checked, the entered username and password will be validated using Windows Active Directory. Note that however a login is validated, the user must be Active.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0 Service Pack 17

Corrected Issues

N/A

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Added Features

12136: Questionnaire Response Returned Column

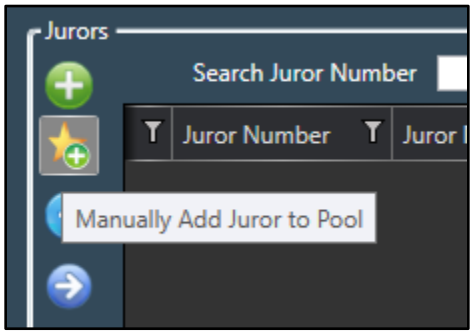

Request Details: Users would like the ability to toggle a column tracking questionnaire status.

Resolution: Added new setting **ShowQuestionnaireReturned**. If true, a 'Questionnaire Returned' column will show in grids in the Pools, Check-in, and Panels screens - these are different from the 'Returned And Qualified' column.

12240: Manually Add Jurors to a Pool

Request Details: Users would like the ability to manually add jurors to a pool.

Resolution: Added new Manually Add Jurors to Pool button. Using this button will open a search box that allows users to select a juror to add to the pool. New setting **ShowAddJurorManual** was added. When true, this button will appear on the pool screen. When false, the button will no longer appear.

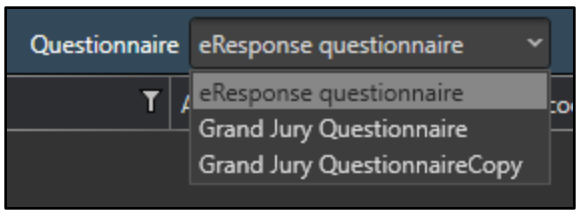

Requires Admin Configuration.

12270: Questionnaire Dropdown

Request Details: Users would like to be able to select from multiple questionnaires on the panel screen.

Resolution: Added a new questionnaire drop down to the panel screen. This will allow users to select a specific questionnaire for each new panel that is created. The drop down will be populated with all the questionnaires that exist in the questionnaires admin menu.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Requires Admin Configuration.

12304: HTTPS Image Service

Request Details: All Jurymark components should have the ability to access the Image Service through HTTPS.

Resolution: Added the ability for the Image Service to use HTTPS.

12464: Faster Outstanding Juror Cash Payment Search

Request Details: Users would like the ability increase performance when loading juror information for cash payments.

Resolution: Added new setting **OnlySearchCashPaymentsForCurrentPool**. If true, the outstanding juror payment search in cash payments screen will only look at the juror's current pool.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0 Service Pack 15

Corrected Issues

106382: Performance issues with 5000 jurors in pool - Excusing Jurors, etc...

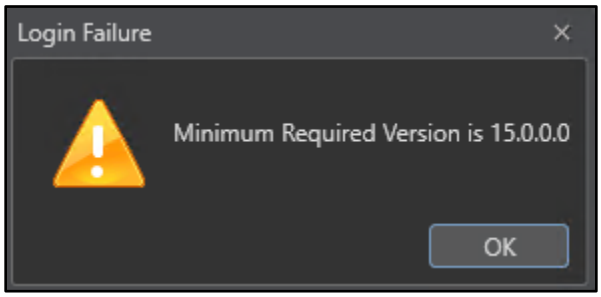

Expected Result: Pools with over 5000 jurors added should not face any performance issues.

Resolution: Increased performance for pools with over 5000 jurors. Performance adjustments were made regarding opening panels, excusing jurors and other problem areas for large pools.

106719: Minimum Required Version

Expected Result: Users attempting to log in with old, unsupported versions of Jurymark should not have access.

Resolution: The VersionInfo table can now be configured with a minimum Jurymark version. Users who attempt to login on a version of Jurymark predating the set minimum will have any login attempts blocked.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Added Features

11765: Excuse Rejection Reasons Added as Comments

Request Details: Users should be able to save and send excuse rejection reasons to jurors via email.

Resolution: Denied excuse application reasons will now be saved under the “Comment” column in juror Notes, and the reasons will be sent to the juror in the denial notification email.

12085: Configurable Connection-Based Banners

Request Details: Users would like to be able to configure a colored message to be shown based on connection to different environments.

Resolution: Added tags to the connection XML file to support a message bar on the bottom of the screen.

<BottomBarColor>Red</BottomBarColor>
<BottomBarTextColor>White</BottomBarTextColor>
<BottomBarText>Text to be displayed goes here.</BottomBarText>

The Color tags support CSS predefined color names. An invalid background color will default BottomBarColor to Red and an invalid text color will default BottomBarTextColor to White. The

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

configured banner will be always displayed while the user has the database selected or is logged in.

 **Requires Admin Configuration.**

11819: Kiosk Screen Redesign for Virtual Keyboards

Request Details: Users that attempt to use the Check-in Kiosk with touchscreen monitors shouldn't have the text entry box covered up by the on-screen keyboard.

Resolution: Existing setting **ShowBigKioskView** can now be configured to "3", changing the formatting of the Kiosk view to accommodate on-screen touch keyboards.

 **Requires Admin Configuration.**

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0 Service Pack 7

N/A

Added Features

11522: Work Phone Number

Request Details: Users would like a way to enter work phone numbers to jurors.

Resolution: Added a new work phone field to the juror workspace. This allows users to add work phone numbers to jurors.

11729: Identifying Juror Information

Request Details: Users would like identifying juror information to appear in reporting status emails.

Resolution: Added new options to customize reporting status emails. These emails will now include identifying information such as first name, last name and juror ID.

ANTHONY MENENDEZ,

You are currently scheduled as an on call juror for Thursday, October 24th, at 8:30 AM.
Further reporting instructions will be updated after 4 PM on Wednesday, October 23rd.

Juror ID: 280424

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

11755: Excuse 'Approved By' Column

Request Details: Users should be able to see which JuryMark user approved a given juror's excuse.

Resolution: Added new setting **ShowJurorExcusedByColumnInPoolWorkspace.** When true, the Approved By column should show in the Pools workspace next to the Excused column.

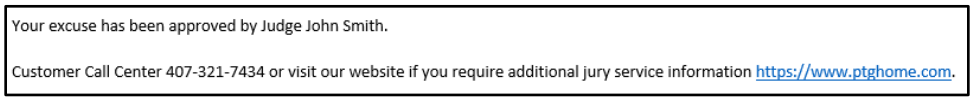

Requires Admin Configuration.

11756: Excusal Request Approved By Notification

Request Details: Users would like an option for excusal approval notifications to include the name of the user that approved the request.

Resolution: Added new Lookup List ExcuseApprovedByMessage, variables {approvedbymessage} and {approvedbyfullname}, and role *notifyapprove*. {approvedbymessage} variable can be used in email/text notifications and will pull in the ExcuseApprovedByMessage Lookup List. ExcuseApprovedByMessage controls the notification text and can use {approvedbyfullname} to insert the approving user's name into the notification. Users with the configured *notifyapprove* role that approve excusal requests will have their name included in the approval text/email notification sent to the juror.

Requires Admin Configuration.

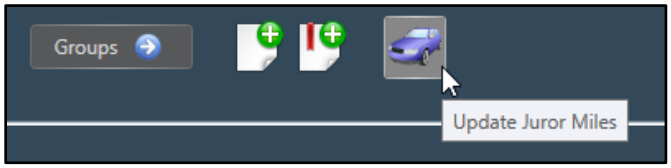

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

11862: Additional Juror Functionality in Pools/Panels

Request Details: Users would like the ability to display juror miles traveled, pay waive status, and employer-paid status in the Pools workspace. Users would also like to disable syncing of juror status from the Panels screen to the Attendance screen.

Resolution: Added several new settings.

ShowMilesInPoolWorkspace: If true, the Miles column will be displayed in Pools. To update the miles traveled for jurors in a panel, use the purple car button.

ShowWaivePayInPoolWorkspace: If true, the Waive Pay column will be displayed in Pools. Checking the option will waive payment for the juror. Jurors with the option checked will have no amount outstanding on the Payments screen.

ShowEmployerPaidInPoolWorkspace: If true, the Employer Paid column will be displayed in Pools. Option will be checked if the juror is employer-paid. This column is informational only.

Miles	Miles Status	Waive Pay	Emp Paid
2268	STATUS: OK	X	
502	STATUS: OK	X	X
286	STATUS: OK	X	
256	STATUS: OK	X	
510	STATUS: OK		
504	STATUS: OK	X	
510	STATUS: OK		X
0		X	X
2280	STATUS: OK		
2266	STATUS: OK		

ByPassSynchingSeatedJurorAttendance: If true, setting the Seated status of a juror in Panels will not update the status of existing Attendance records. If false, setting Panels status to Seated will update the status of the related Attendance record normally. Changing the setting from true to false will not retroactively update Attendance records if Panels Seated status was entered when setting was true.

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

11872: Juror Occupation

Request Details: Users would like a way to store juror occupation.

Resolution: Added new setting **ShowJurorOccupation.** When true, the Occupation field will show on the Jurors screen. When false, no Occupation field will appear. Occupations are defined by the Occupation Lookup List.

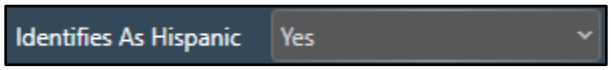

Requires Admin Configuration.

11873: Juror Identifies as Hispanic

Request Details: Users should be able to indicate if a selected juror identifies as Hispanic.

Resolution: Added new setting **ShowJurorIdentifiesAsHispanic.** When true, the Identifies as Hispanic field will show in the Juror workspace.

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0 Service Pack 6

Corrected Issues

104169: Inactive Panel Statuses

Expected Functionality: Inactive Panel statuses should not appear on the status drop down of the panel screen.

Resolution: Fixed an issue that was causing inactive panel statuses to appear in the drop down. Now, only statuses marked as active will appear on the panel screen.

104392: Jury Check Numbers Get Lost on Data Update

Expected Functionality: When juror data gets updated, check IDs should not be cleared for that pool.

Resolution: Added new setting, **CheckInAutoReport**, to prevent check IDs from being cleared when jurors are checked out.

104783: Outstanding Payments – Printer Icon Grayed Out

Expected Functionality: Users should be able to select the printer icon to show outstanding payments reports within the payment workspace.

Resolution: Fixed issue on payment screen with the report icon not being enabled for outstanding pool payments.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Added Features

11361: Auto Print Labels from Kiosk

Request Details: Users would like a report to auto print when a juror checks in using the kiosk.

Resolution: Reports will now automatically print when a juror checks in on the kiosk. Added new setting **KioskCheckInAutoReport2.**

Requires Admin Configuration.

11362: Incomplete Questionnaire Message

Request Details: Users would like a way to prompt jurors with incomplete questionnaires when they check in using the kiosk.

Resolution: If a juror with an incomplete questionnaire attempts to check in using the kiosk, Jury will now prompt them to fill out the questionnaire. Added two new settings **ShowKioskInCompleteQuestionnaireScreen** and **KioskInCompleteQuestionnaireVerbiageLines.**

Requires Admin Configuration.

11364: Disabling 'Employer Paid' from Kiosk View

Request Details: Add the ability to disable capturing employer paid information in the kiosk.

Resolution: When **ShowKioskOptionEmployeerPays** setting is set to zero, employer paid question will not appear on the kiosk screen.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

11367: Auto Print Check In Labels

Request Details: Users would like a way to automatically print reports when jurors are checked in without using the kiosk.

Resolution: Reports will now automatically print to the selected printer when a user is manually checked in without using the check-in kiosk. Added new setting **CheckInAutoReport.**

Requires Admin Configuration.

11368: Allow Kiosk to Auto Open Pool

Request Details: Allow the kiosk to auto open the pool for the current day. Leaving the kiosk open should not cause memory issues.

Resolution: Check-in kiosk will now restart Jurymark and re-open the kiosk for the current day's pool. If Jurymark is left running in kiosk mode, it will re-start after 3:00am and open the kiosk for the day.

11379: Removing County from Kiosk

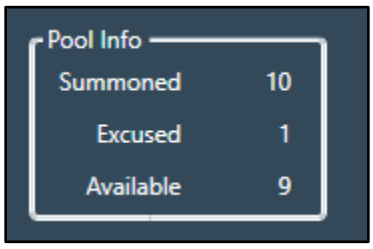

Request Details: The word 'County' should be removed with certain settings.

Resolution: When **HideCountyLabel** is set to true, the word 'county' will not appear on kiosk.

11361: Juror Summary Box

Request Details: Requesting a summary box to appear in the Juror Workspace to quickly see the amount of people left in a pool

Resolution: When a juror is opened from the excuse queue the pool information is shown at the top of the workspace

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0 Service Pack 3

Corrected Issues

N/A

Added Features

11202: Juror Compensation Based on Miles

Request Details: Juror payment should be based on miles traveled to the courthouse.

Resolution: Updated juror payments to include a $0.16 per mile fee. Juror miles can be updated using the new car icon on the juror check-in screen.

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0.0 Service Pack 134

Corrected Issues

103888: Check-In Kiosk Resets Employer Paid Flag

Expected Result: Having a juror check-in through the kiosk feature should not reset their employer paid status.

Resolution: Fixed issue where jurors that checked-in online were having their employer paid status reset when using the kiosk.

Added Features

11112: Trademarked Logos and Copyright Year

Request Details: Update all logos in the application for the product and Pioneer with “TM” included. Update all copyrights to current year. Add an **About** screen in preference workspace.

Resolution: Added About screen in preferences workspace and added copyright info to login screen.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0.0 Service Pack 133

Corrected Issues

20667: Converted Historical Felon Juror Excusal Status Not Populating on Report

Expected Result: Any converted 'Felon' juror excusal statuses converted to the existing Felon excusal with a program control of convicted felon should populate on Report.

Resolution: The Juror table has been re-loaded on the support SQL server with the excusal start and end dates now populated. The Juror felon report now displays felons disqualified.

20674: Permanently Excused Box is Not Flagged

Expected Result: When a juror's Excuse setting is permanently excused, the corresponding check box is checked.

Resolution: Fixed an issue where setting a juror to permanently excused did not flag the permanently excused check box.

20731: Voided Check Juror History Record Shows Wrong Check Amount

Expected Result: When a check is voided, the Juror History Record should show the check amount voided.

Resolution: Juror History Record now shows correct amount for voided checks.

20770: Last Served Date Changing When Juror is Assigned to a Different Pool

Expected Result: When a Juror is moved to a different pool, the Last Served date should not change to the new pool date.

Resolution: Updated logic for Setting: **DateLastServedLogic** to prevent Last Served date from changing.

Requires Admin Configuration.

20771: Case Event Blackout Dates

Expected Result: Users should not be able to add case events on Holidays or other blackout days.

Resolution: The Case Event screen will now check for blackout dates

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

20823: Case Event Panel Type Not Overriding Defaulted Panel Type

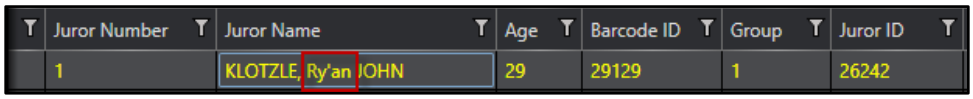

Expected Result: When creating a new panel and linking a Case even to the panel, the panel type should replace the default Panel type listed on the case event.

Resolution: A new setting has been added, **DefaultPanelTypeId,** that can be used to set the default panel type. When Selecting Case Event now sets Panel Type where the Panel Type Description matches the Case Event Type description.

20832: Apostrophe in Name

Expected Result: Names with apostrophe should not be cut off

Resolution: Fixed issue that was causing imported jurors with apostrophes in their names to be cut off.

20854: Jurymark Should Not Allow Duplicate Usernames

Expected Result: Client should not allow for multiple users to be created with the same login credentials.

Resolution: Added check to prevent duplicate users with the same username.

20925: Report Export Adding "?" in SQL Text

Expected Result: Exporting report results should no add any unnecessary characters like question marks.

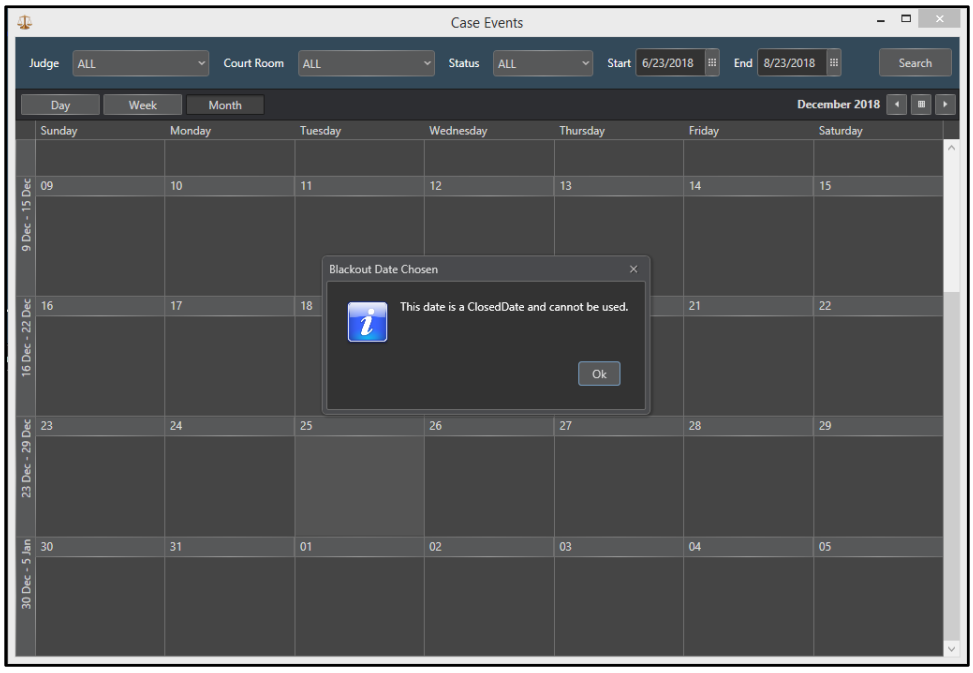

Resolution: Fixed an issue where exporting reports to XML could add extra question marks in the SQL Text.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

20966: Jurors Getting Added to Same Pool More Than Once From Reschedule Excuse

Expected Result: Jurors should not be added to the same pool more than once from reschedule excuse.

Resolution: The issue where jurors could get added to the same pool more than once when a reschedule excuse was performed.

Requires Admin Configuration.

20977: Regular Juror Import is Adding Unnecessary History Records

Expected Results: Adding jurors through the Juror Import feature does not add unnecessary records to the juror's history.

Resolution: Fixed an issue where Regular Juror Import was adding unnecessary history records with the description "Juror Excused from Import".

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

20978: Add Setting to Prevent Called Off Jurors from Serving in Next X Months

Expected Result: Add a setting that controls how many months a juror will not be pulled after being called off.

Resolution: Added setting **PoolCalledOffMonthsCheck** to control how many months before a called of juror can be pulled again. Setting this to 0 will turn off the setting.

21024: Pulling From Rescheduled First is Not Working

Expected Result: Having the Pull From Rescheduled First box checked works when checked.

Resolution: Fixed an issue where Pull From Rescheduled First was not working when the **JurorIDsContainLargeGaps** setting was enabled.

21025: Searching Outstanding Payment by Juror ID Returns Payments from Employer Paid Jurors

Expected Result: Searching for outstanding payments by juror ID only returns payments from their current pool.

Resolution: Fixed issue where searching for outstanding payments by juror ID would consider attendance records outside the juror's current pool.

21031: Report Export Causes Error When Using Image Service

Expected Result: Exporting a report through the Admin workspace does not generate an error.

Resolution: Fixed issue where report export can cause an error when using Image Service.

21158: Importing a Large Number of Jurors from Stage Table Causes an Error

Expected Result: Importing a large number of jurors from the stage table should not cause an error.

Resolution: Added the setting **JurorStageListLimit** in order to prevent error when importing close to 1 million jurors.

21159: Employer Paid Days Not Matching Outstanding Payments

Expected Result: Outstanding payment balance should match the employee paid days appropriately

Resolution: Payment screen now accurately shows and matches employee paid days according to attendance dates

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

21227: Searching Outstanding Payment by Panel is not Limited to Panel Only

Expected Result: When searching payments by panel, only jurors in that panel are shown.

Resolution: Fixed an issue where searching for outstanding payments by panel could pull in other jurors from the same pool.

21302: Pool Type Drop Down is Duplicating Items

Expected Result: Pool type should not duplicate items that are highlighted when creating a new pool.

Resolution: Fixed an issue where the pool type drop down in the Pool workspace could show duplicate values.

21303: In-active Juror Status Appearing on Status Drop Down

Expected Result: When selecting the status of a juror under the panels tab, only active settings should be displayed instead of all possible statuses.

Resolution: Only active status will be shown in the drop down of panels, and inactive statuses will not be shown to pick from.

103700: Improve Process When Moving Jurors Between Pools

Expected Result: When moving jurors between pools, there should not be a lag or delay.

Resolution: Excessive queries that were slowing down the process of moving jurors have been removed and improved speed.

103737: Employer Paid Causing Error on Check-In Screen

Expected Result: When selecting employer paid before checking in jurors, navigating to the payment screen should match attendance dates without causing error.

Resolution: Fixed issue where selecting employer paid before checking in jurors affected navigation to the payment screen.

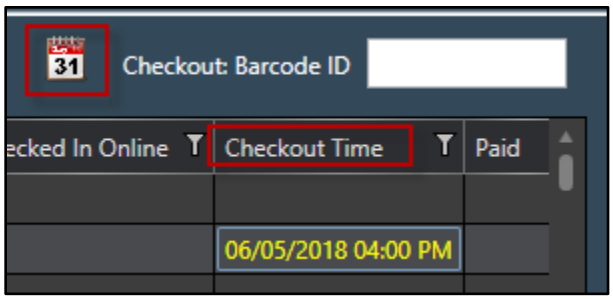

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Added Features

9911: Track Juror Check Out Details

Request Details: Users would like to have the ability to track a juror's departure times for the purpose of their employer and appearance letters.

Resolution: The new setting has been added, **ShowCheckOutDate**, and a column has been added to the Check-In workspace. For multiple attendance dates, you can now set check out date per attendance date by selecting the calendar icon by the Checkout:BarcodeID.

Requires Admin Configuration.

9912: Integrate SSRS Report Functionality

Request Details: Users would like to be able to run customized reports via report generating tool SSRS. SSRS Reports should use the page orientation that the report was designed with.

Resolution: Added Summons Letter SSRS and Cash Receipt SSRS Reports to Reports tab. SSRS Reports load with the correct page settings.

9914: Scan Drivers Licenses

Request Details: Users would like to be able to scan driver's licenses on the check-in kiosk.

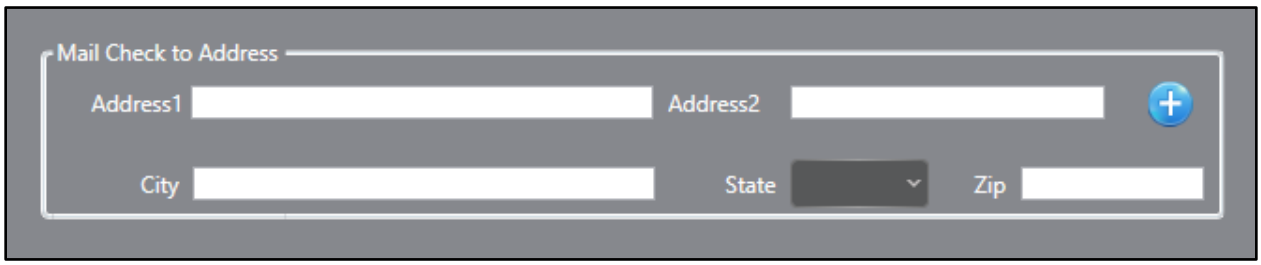

Resolution: Added the ability to scan driver's licenses on the check-in kiosks in order to check in new jurors.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

9921: Allow for Multiple Address Storage/Utilization per Juror

Request Details: Users would like to be able to add multiple addresses to jurors.

Resolution: New setting, **AllowJurosToMailchecksToAltAddress**, has been added. This setting will allow for a mailing address for mailing checks to be added to Jurors in the Edit Juror pop-up that is in the Pool and Check-in Workspace.

Requires Admin Configuration.

9970: Provide Help, Prompts, and Documentation to Assist System Users Within Jurymark

Request Details: Add a menu option to open the User Guide.

Resolution: Added question mark icon in upper left-hand corner of Home screen to open the JurymarkUserGuide PDF. Icon will not appear if User Guide file is not in the Jurymark folder.

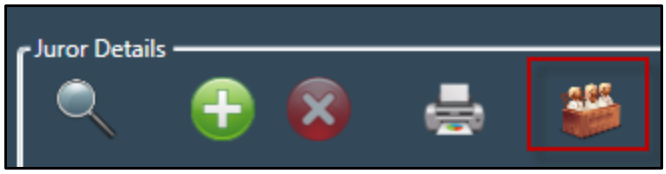

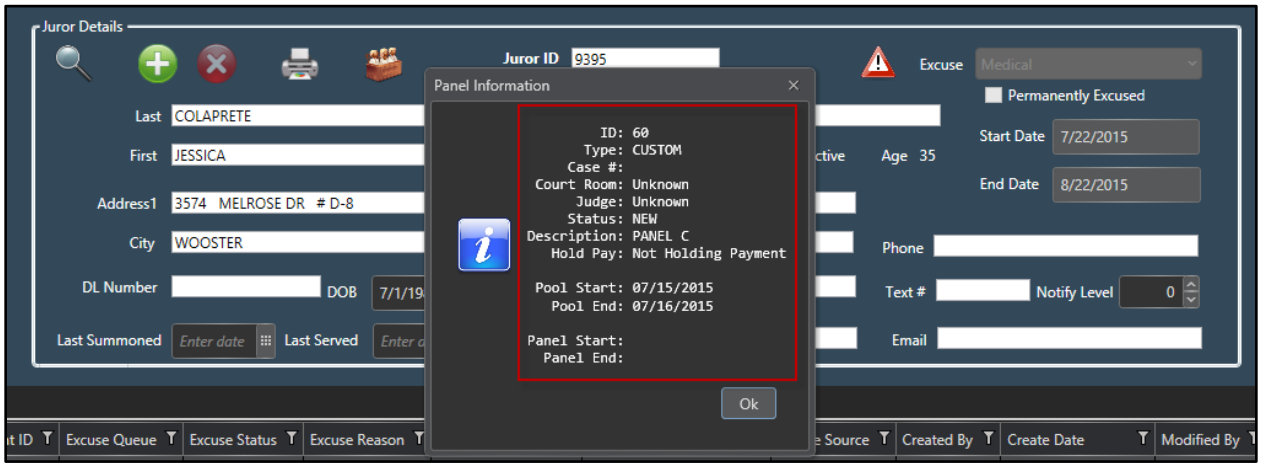

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

9971: Record In-Service Jurors

Request Details: Users would like to have the ability to reference what court room a juror got sent to as well as the case number and the courtroom fields for the trial in which they were selected.

Resolution: Within the Juror Screen, users will be able to select the Panel Information and within it view the Panel Information.

9979: Barcode Status Update

Request Details: Users would like to be able to update juror statuses by using Barcode Technology.

Resolution: Added new Barcode Status Update workspace to the juror screen.

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

9982: Outstanding Checks Status

Request Details: Users would to add the ability to reconcile checks.

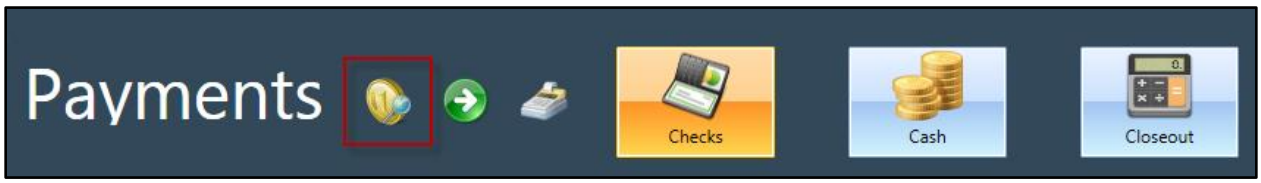

Resolution: A new setting, **ShowCashedCheckColumn**, has been added and a new right, *Reconcile*, has been added.

Requires Admin Configuration.

10015: Add Mass Voiding Functionality- for Unclaimed Funds Process

Request Details: Users would like to allow court to mass void unclaimed funds for those whose time have lapsed during which they were not claimed by someone after the court posted a public notice indicating they had unclaimed funds.

Resolution: A new setting, **ShowUnclaimedFunds**, has been added. When the setting is enabled users will be able to access unclaimed funds from the Payment Workspace. The Setting, **UCFVoidPrefix** is the setting that will set the wording included at the beginning of UCF voided check history records.

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

10016: Add Ability for Custom History Records to Reports and Payment Workspaces. Automatically Add a History Record When Jurors Select to Donate Pay. Add Setting to Obtain Juror SSNs for 1099 Reporting.

Request Details: Allow users to add custom history reports to jurors within the Report and Payment workspaces. Also add a history record to jurors that indicates they chose to donate pay. Add a way to display a message when jurors need to receive a 1099 form.

Resolution: Added custom history record buttons to the Report workspace and Payment workspace. Whenever a juror decides to donate pay, a custom history entry is made. Added the setting **PanelAttendanceWarningCount** to decide when a reminder to obtain juror SSN's for 1099 will appear.

Requires Admin Configuration.

10022: Pay Upon Completion Box is Needed

Request Details: Pay upon completion box is need in order to mark "check mark" if they are pulling a panel for grand jury who does not get paid until the end of their service term of 6 months.

Resolution: The setting **ShowHoldPanelPayOption** has been added. This setting will either show the pay option on the panel and payment screens.

Requires Admin Configuration.

10026: Add Final Approval Button in Payment Workspace

Request Details: Add a "Final Approval" button in the Payment workspace that will allow payroll to move to the next possible step.

Resolution: Added Setting: **RequirePaymentBatchApproval** to require approval of batches and Right: **Approve Checks** to control user ability to approve batches.

Requires Admin Configuration.

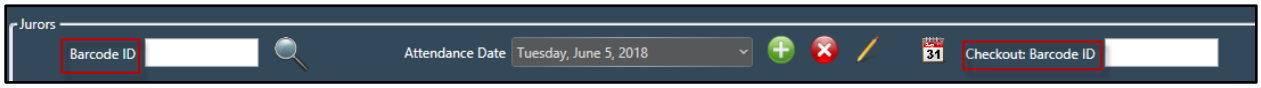

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

10187: Add Juror ID Lookup in Check-in Workspace

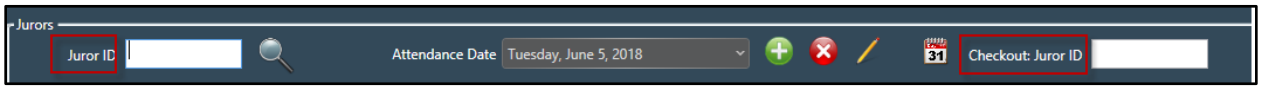

Request Details: Users would like to have the ability to check in jurors using their juror id instead of their barcode id.

Resolution: A new setting, **CheckinLookupUseJurorId**, has been added. When the setting is enabled users will be able to use the juror id instead of the barcode id.

Before the setting is enabled:

After the setting is enabled:

Requires Admin Configuration.

10310: Ability to Search Panels by Case Number

Request Details: Users would like the ability to search panels by the case numbers.

Resolution: Users will be able to search for panels by the case numbers.

10330: Add Browse Check Option in the Payment Workspace

Request Details: Users would like the ability to search by the check number in the Payment Workspace.

Resolution: Users will be able to search by the check number in the Payment Workspace. Also, the ability to search by the Create Date or Start Date has been added to the Pool and Panel Searches.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

10332: Check Out Juror by Barcode ID

Request Details: Users would like a way to check out jurors with barcode ID.

Resolution: Added ability to check jurors out with Barcode ID.

10333: Generate Juror History Record for Each Juror Affected When Bank Recon File is Imported

Request Details: User would like the juror history record to be added when checks clear or un-clears.

Resolution: When checks clear or anything bank related occurs to a specific juror, it will be recorded in their Juror History.

10340: Ability to Send E-Mails Using Windows Service

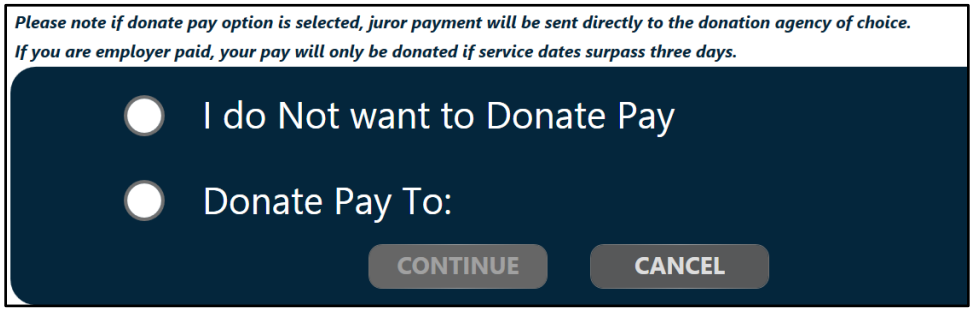

Request Details: Add the ability to send e-mail notifications from a separate server using Windows service.

Resolution: Added Ability to send smtp email and text notifications using Jury Windows Service instead of client. Added Setting: **SendEmailsUsingService**. Added Setting: **RunServiceNotifications**. Added Setting: **NotificationsLastRunDate**. Added Setting: **NotificationsCheckInterval**.

10341: Donate Pay

Request Details: Users would like the option to donate pay from the check-in kiosk.

Resolution: Users will now be prompted with the option to donate pay. Added new setting **ShowKioskOptionDonatePay.**

Requires Admin Configuration.

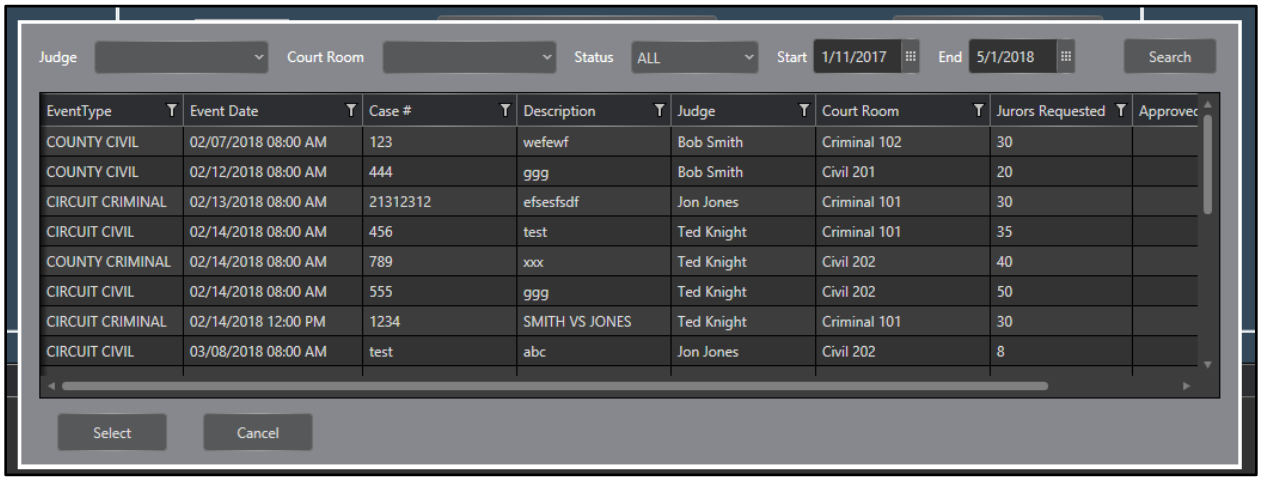

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

10354: Add Ability to Select Case Event When Creating Panel

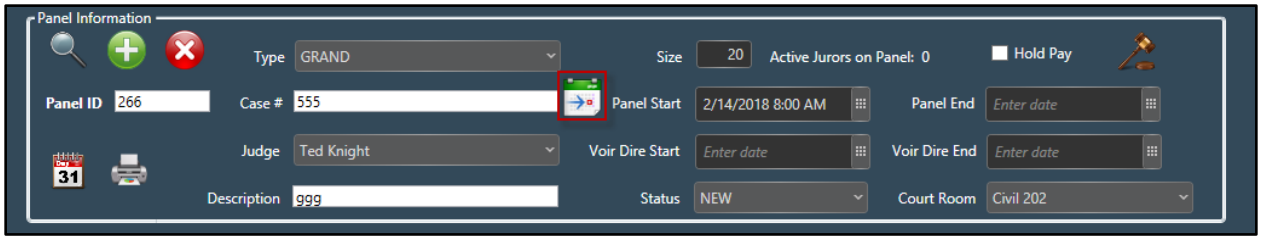

Request Details: Users would like the ability to add case events when creating a new panel.

Resolution: When the setting, **ShowCaseEvents**, is true a case event search will pop up when creating a panel in order to be linked to a case event. Assigning a Case Event to a Panel will auto pull in information from the case such as the judge, court room and case number. A case events button has also been added next to the case number where users will be able to view and assign a case even to a panel.

The pop-up window to add a case event:

The button to add case events:

10361: Increase Ability to Search for Large Number of Panels

Request Details: Increase the search performance for the system to handle a large search range by date.

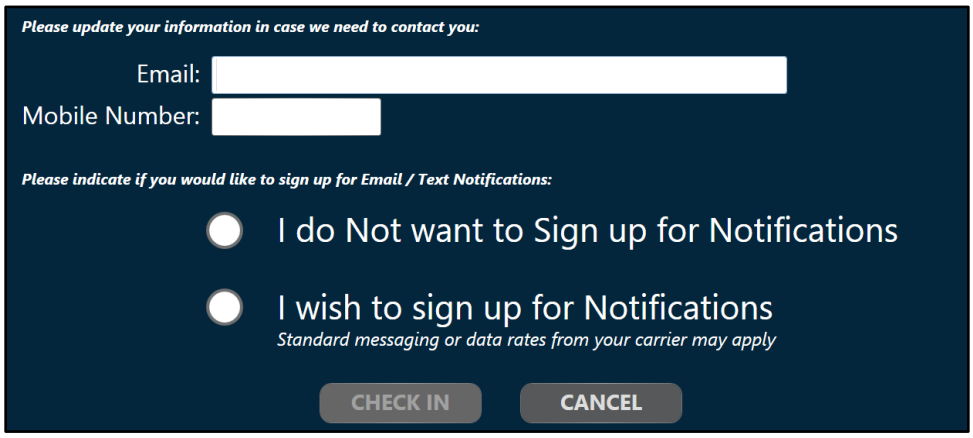

Resolution: When searching for a panel using a large date range has been increased. Users will be able to search using a large date range.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

10376: Contact Information Added, and Text/Font Size Changed on Kiosk Screen

Request Details: Users would like the option to add a mobile number and email as contact information on the check-in kiosk. Text from kiosk screen prompts should be the same size and font.

Resolution: Users will now be able to enter contact information while checking in with **ShowKioskOptionEmailPhone** setting enabled. Check-In Kiosk screen can be set to have matching texts with **ShowBigKioskView** setting.

Requires Admin Configuration.

10381: Prevent Row Selection from Jumping in Admin Screens

Request Details: Prevent skipping when selecting rows in admin screens.

Resolution: Fixed issue where selected row was jumping in admin screens.

10393: Judge and Court Room Drop-downs on Panel Screen Order

Request Details: Judge and Court Room drop-downs on Panels screen should list all options in Alpha Order.

Resolution: All selections in Judge and Court Room drop-downs on the Panels screen now display in Alpha Order.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

10399: Only Show Active Document Types When Adding a New Document

Request Details: Users would like to only be shown active document types when adding a new document.

Resolution: Document Types that are not active will not be displayed when adding a new document.

10405: Ensure Juror History Payment Operations are Tracked by Logged in User

Request Details: Users would like Juror History Payment's to be tracked by logged in user.

Resolution: Juror History Payment Operations will be tracked by logged in user.

10408: Need Higher Contrast Font Color in the Excuse Field

Request Details: Change the font color in the Excuse field in Juror Details so that it is easier to see.

Resolution: Increased Font color for Juror Excuse Description on Juror Screen.

10414: Limit Number of Postponements Per Day of the Week

Request Details: Number of postponements should be able to be limited per day of the week.

Resolution: Setting added to limit number of postponements per day of the week.

Requires Admin Configuration.

10415: Same Day Reporting for Groups

Request Details: Designate certain groups to call back after a certain time for same day reporting.

Resolution: Added a new setting **OfficeSameDayReportingTime**. This controls the checking for same day reporting status. Groups scheduled to appear after this time of day must wait until same day to check status.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

10417: Speed up Juror Selection

Request Details: Users would like to speed up the random selection of jurors for a pool when over 1000 are added.

Resolution: The process for adding over 1000 jurors to a pool will now be sped up. Added new setting **JurorIDsContainLargeGap.**

Requires Admin Configuration.

10418: Limit Notify Level from 0 to 3 on Juror Screen

Request Details: Notify Level should only be able to be set from 0 to 3 on Juror Screen.

Resolution: Notify Level is limited to 0 to 3 on Juror Screen.

10419: Add History Record During Juror Import When Updating Deceased and Felon Status

Request Details: Add history record during juror import when updating deceased and felon statuses.

Resolution: When importing juror information, if the juror is a felon and/or deceased it will be added to Juror History.

10422: Limit # of Postponements Per Day of the Week

Request Details: Users would like to limit the number of postponements per day of the week.

Resolution: The ability to limit the postponements per day using the setting, **MaxReschedulecountPerDayOfWeek**, has been added.

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

10431: Add Options to Hide Date Last Summoned and Date Last Served on Juror Screen

Request Details: Ability to hide Date Last Summoned and Date Last Served fields on Juror screen.

Resolution: Settings **HideLastServedDate** and **HideLastSummonedDate** created to hide date fields on Juror screen.

Requires Admin Configuration.

10432: Add Ability to Copy/Move Jurors from a Panel on One Pool to a Panel on a Different Pool

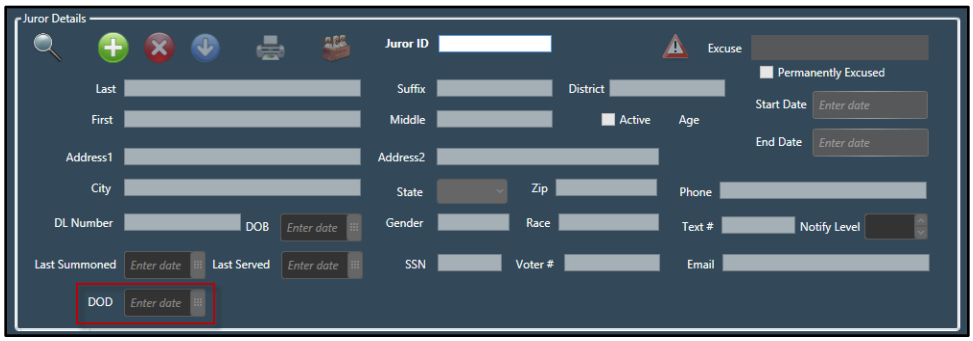

Request Details: Add ability to copy jurors from a panel on one pool to a panel on a different pool.

Resolution: Added ability to copy and move jurors from a panel on one pool to a panel on a different pool. Copying Juror to new panel does not remove Juror from old panel. Moving Juror to new panel removes Juror from old panel.

10435: Date of Death Field

Request Details: Users would like the date of death field to be added to the juror workspace.

Resolution: Date of Death (DOD) has been added to the juror workspace

10450: Payment Batch Search Based on Batch Date instead of Create Date

Request Details: Users would like Payment Batch searches to be based on Batch Date instead of Create Date.

Resolution: The Payment Batch searches are now based on the Create Date.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

10451: Bank Reconcile File Functionality Changes

Request Details: Add reconciled date and cleared date columns to payments grid. Manually un-reconciling a check clears the reconciled and cleared date fields. Add total checks and total amount to Import Reconcile Results file. Add button to allow manually setting the cleared date. Importing a bank file a second time will not change existing data or add another juror history record. Add ability to set default export path and/or file name for 'Search Grid' exports. Add Report Parameter called ExportPath. Add Report Parameter called ExportFile.

Resolution: Added reconciled date and cleared date columns to payments grid. Manually un-reconciling a check now clears the reconciled and cleared date fields. Added total checks and total amount to Import Reconcile Results file. Added button to bottom of payments grid that allows manually setting the cleared date. Importing a bank file a second time will not change existing data or add another juror history record. Added ability to set default export path and/or file name for 'Search Grid' exports. Added Report Parameter called ExportPath. Added Report Parameter called ExportFile.

10453: Editing Juror's Date of Death Should Be Right Based

Request Details: Need to make the ability to edit the Date of Death field in the Juror workspace right based.

Resolution: Created new Right **EditJurorDateofDeath** to control ability to edit Date of Death on Juror screen.

Requires Admin Configuration.

10459: Show Activity Time on Juror Screen History Grid

Request Details: History grid on Juror screen should show the time as well as the date of Activities.

Resolution: History grid on Juror screen shows the time of Activities.

10461: Move Multiple Jurors from One Pool to Another

Request Details: Need ability to move multiple jurors from one pool to another at one time.

Resolution: Multiple jurors can be moved between pools at once using Move Jurors icon.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

10462: Unclaimed Funds Change Requests

Request Details: Add ability to export to Excel. Add print buttons to grid. Show count and total amount of checks. Add confirmation window when you click void and issue UCF check. Make search dates optional, and remove “From” date field. Improve performance when searching checks. Rename “Payments Issued” to “Payments Issues As of”.

Resolution: Added Printer Preview and Export to Excel buttons for Unclaimed Funds Search Grid. Added Total Checks and Total Amount. Added confirmation message when voiding and creating UCF check. Increased search performance. Removed “From” date and changed label on unclaimed funds screen.

10463: Add New Setting to Determine Value Used to Update Date Last Served

Request Details: Users would like a setting to determine what logic to use to update the DateLastSaved field on the Juror table.

Resolution: A new setting has been added, **DateLastServedLogic**.

Requires Admin Configuration.

10464: Need to Increase Payment Screen Performance

Request Details: Users would like to be able to open payment batches without waiting several minutes.

Resolution: Increased performance when opening existing payments on Payment Screen.

10472: FTA Count on Juror Screen Needs to Use FailedToAppearPrevMonths

Request Details: FTA Count on Juror screen needs to use FailedToAppearPrevMonths.

Resolution: Fixed issue where FTA Count on Juror screen was not using setting: FailedToAppearPrevMonths.

10482: Exclusion of Previously Empaneled Jurors (within the same pool) When Adding Jurors to a New Panel

Request Details: When the system is adding jurors, the system should first pick available people form the pool who have not yet been sent up and then recycled. Then, the system should randomly pick from the recycled people as needed.

Resolution: Recycled jurors will be chosen after non-recycled jurors have been chosen.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

10487: Add DOD Column in the Import Workspace

Request Details: Users would like to add the DOD column to the Import Workspace to capture Date of Death data from import files.

Resolution: The DOD column has been added to the Import Grid for Deceased Import.

10490: Expose Excusal Start Date for Permanent Excusals-JurorStatusID added to History Table

Request Details: For Permanent Excusals, need to populate a single date field which should populate to the date the excusal is updated/changed.

Resolution: Added JurorStatusID to Juror History table that will populate whenever Excuse is Changed or Cleared.

10498: Juror Excuse End Date

Request Details: Users would like the juror excuse end date on the panel screen to be replaced.

Resolution: Juror excuse end date on the panel screen will now use juror status defaults.

10499: Add Ability to Move an Entire Panel from One Pool to Another

Request Details: The ability to move an entire panel from one pool to another has been asked.

Resolution: Added the Panel Move to Pool Juror to track when jurors are moved to other pool from panels. Moving jurors to other pools will now reflect excuse status based on new pool dates.

10506: Pending Jurors

Request Details: Users would like a new pending juror status.

Resolution: Added a new Pending Juror status to Panel Juror Statuses. Jurors with status pending will be treated as an 'Active' juror.

10508: Add Setting to Skip Panel Start Date Restrictions

Request Details: Need a setting to ignore panel start date restrictions.

Resolution: Added setting **SkipPanelDateRestrictions** to allow Panel Start and Voir Dire Start dates to not be limited to pool start date.

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

10509: Update Void Check History Records to Show Void Amount Instead of Zero

Request Details: When checking History Records for Voided Checks, it should show the void amount not zeros.

Resolution: Updated Void Check History records to now show the voided amount.

10512: Add 'Status' Column to the 'Select Jurors' Window

Request Details: Users would like a 'Status' column added to the 'Select Jurors' window when clicking on the Manually Assign to Panel button.

Resolution: The Status column has been added to the grid for manually adding jurors to the panel.

10513: Ability to Track Historical Juror Address

Request Details: Users would like the ability to track historical addresses of jurors.

Resolution: When adding a juror to the pool, the ability to track history for summons address and DL have been added to Juror History.

10519: Allow Payment Calculations to Handle Paying Employer Paid Days in the Past

Request Details: Users would like to allow payment calculations to handle paying employer paid days in the past.

Resolution: Payment Calculations have been adjusted to handle jurors moving between pools. Also, setting, **ShowOverridePayOption,** has been added. It will change the pay rate to handle employer pay adjustments.

Requires Admin Configuration.

10522: History Not Added When Checking In Moved Jurors

Request Details: After checking in moved jurors, a history should be added.

Resolution: The issue where check-in history records were not getting created has been fixed.

10553: Update PoolJuror ExcuseStatus Field When Excuse Changes

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Request Details: The Excuse Status for a Juror in a Pool should be updated in the PoolJuror table when it gets updated for the Juror.

Resolution: "Excused" field in table for Jurors in a Pool now gets updated when the Juror's Excuse status changes.

10556: Add Moved to Pool Info in Add Jurors to Attendance Date Window

Request Details: The "Moved From Pool" information that is populated in the excusal column on the main check in workspace needs to show up in the "Add Jurors to Attendance Date" window that populated when the green plus is selected.

Resolution: The Excuse Description has been added to Select Juror pop-up shown in the Check-In, Panel and Attendance Screens.

10564: Allow Export Files to Save to Location

Request Details: Users would like to allow export files to save to a location.

Resolution: File export will now save without showing save window for search grid reports when both Report ExportFile and ExportFile are set.

10566: Need to Increase Performance When Opening Pools to Prevent Timeouts

Request Details: There is a need to increase performance when opening pools to prevent timeouts.

Resolution: A new setting, **LoadPoolandPanelScreensFaster**, has been added to help load screens faster.

Requires Admin Configuration.

10572: Only Set Skip FTA When Moving From Panel

Request Details: Only moving jurors to other pools from panel should set skip FTA.

Resolution: Only moving jurors to other pools from panels will now set skip FTA.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

10573: Add “Checked In” Column to Panel Attendance Screen

Request Details: Add a Checked In column to Panel Attendance Screen

Resolution: Added Checked In column to Select Jurors pop-up window on Attendance Screen. This shows if they checked into the pool on the same day as that panel attendance.

10574: Allow Ability to Only View Checks and Not Create them.

Request Details: Users would like to allow the ability to only view checks and not create them.

Resolution: To gain control over existing right, *IssueChecks*, two new rights have been added: *CreateCheckBatch* and *AssignCheckNumbers.*

Requires Admin Configuration.

10575: Refresh Juror Summary #’s When a Panel is Created

Request Details: Refresh Juror summary numbers when a panel is created.

Resolution: Added Refresh Screen button on Panels screen (near Summary numbers).

10576: Excuses Are Not Clearing on Pooljuror and Prevent Jurors from Checking In

Request Details: When clearing excuses, jurors should be able to check-in afterwards.

Resolution: The issue where when excuses weren’t being cleared and it was preventing jurors form checking in has been fixed.

10588: Entering Barcode ID for Jurors Should Highlight and Scroll to Juror Name

Request Details: When entering a juror’s Barcode ID, it should highlight and scroll to juror name.

Resolution: The issue where checking in jurors would not always scroll to juror in grid. If show checked in only is checked and prompt for employer paid is on, juror row will not highlight until after question, but, the juror name is now being shown in the message box.

10592: Checking Out Juror Sets Active Status to False

Request Details: Checking out juror should set active in pool status to false.

Resolution: Checking out juror now removes active in pool status.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

10593: Pool Juror Staying Active

Request Details: When a pool juror is added to a panel, he/she should be inactive on the pool and the juror history should be updated.

Resolution: Added a consistency check when a juror is added to a panel to ensure the history and active status are updated.

10596: Change Email/Text Calls to Work with New smtpfrom Email Addresses

Request Details: Update the email and text process to work with the new smtpfrom email address.

Resolution: Changed the email and text process to use the **SMTPFromAddress** setting.

10601: Jurors Moved from Other Pools Have Incorrect Payment Calcs Based on Employer Paid Status

Request Details: When jurors are moved from other pools, they are having incorrect payment calculations based on employer paid status.

Resolution: The issue has been fixed where the calculating payments based on employer paid when juror was moved from other pools.

10610: Payment Workspace Add Ons- Total & Option to Export to Excel

Request Details: Users would like to have the total added as well as an option to export to excel to the bottom of the Payments workspace.

Resolution: The ability to export outstanding payments grid to Excel has been added and the total outstanding amount is shown at the bottom. Also, Waive Pay and Employer Paid information has been added to the Attendance Information Sub-Grid.

10611: Adding Jurors on Check-In Screen

Request Details: Users should not have an issue with adding jurors on the check in screen.

Resolution: Fixed issue with adding jurors to a pool on the check in screen.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

10624: Juror Being Checked in is Excused in the Pool

Request Details: At check in time, if the juror is being checked in is excused in the pool and excuse type is a postponement type then prompt the user to move the juror back into the pool then check them in. May need to also check if excuse is not postponement and they have been moved to move them back in to the pool.

Resolution: A logic to find a juror's current pool adjusted to handle when the juror has been moved. A new setting, **CheckInMovedToValidation**, has been added.

Requires Admin Configuration.

10625: Add Deferred Juror to Existing Pool

Request Details: Users would like to add jurors to an existing pool when juror defers through the IVR service or a user defers through the client.

Resolution: Deferred jurors will now be added into an existing pool. Added new setting **AutoMoveRescheduleJurorsWhenPoolExists**. If true, when juror is rescheduled to another date, if a pool for that already exists, they will get moved into that pool.

Requires Admin Configuration.

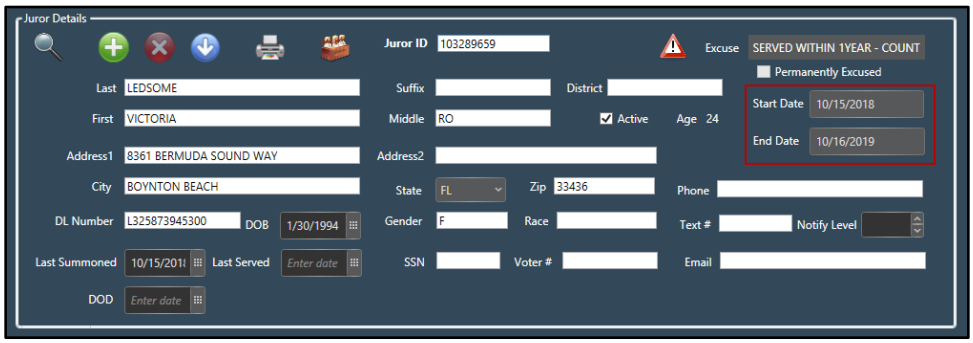

10628: Barcode Scan Mass Excusals

Request Details: When adding mass excusals from the Barcode Status Update Screen, users would like the excuse start and end date to match the Juror Pool start and end date.

Resolution: Now when mass excusals are added on the Barcode Status Update Screen, the start and end date for the excuse will match the Juror Pool start date and the end date will match the pool date plus the default number of months for the given excuse (if the pool end date is 1/1/2018 and the excuse has a default number of months of 6, the excuse end date will be set to 7/1/2018). Added new setting **BarCodeStatusUpdateUseIndivJurorPoolDates.**

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

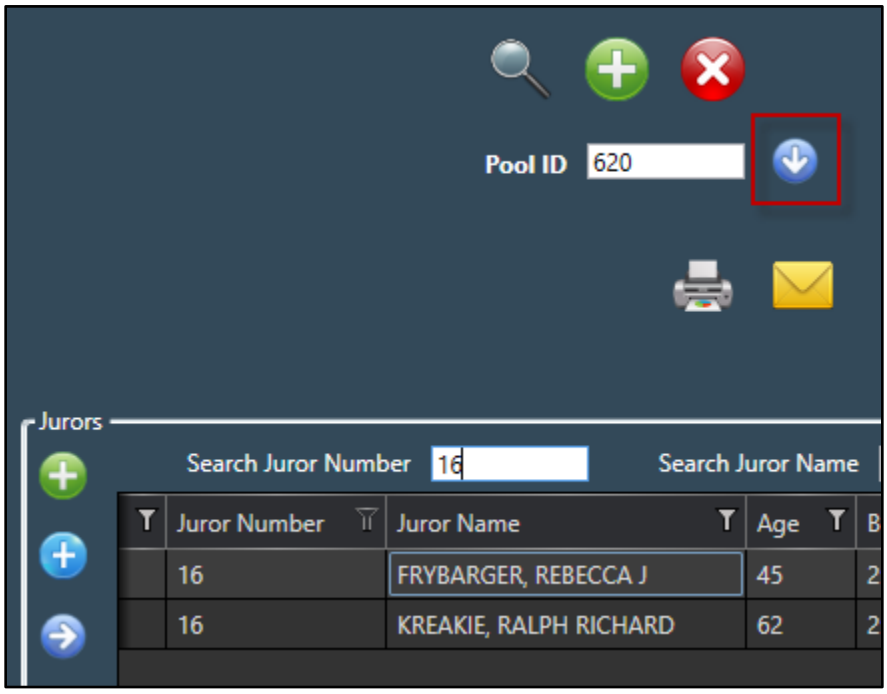

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

10724: Renumber Jurors

Request Details: Users would like a way to renumber jurors on the Pool Screen.

Resolution: Added a new button that would allow users to renumber pool jurors. This button will only be available if there are duplicate juror numbers or gaps in juror numbers.

10758: Jurors From the Same Household

Request Details: Jurors from the same household should not be able to be added to the same pool.

Resolution: Jurors with the same address can no longer serve on the same pool. Added new setting **JurorsFromSameHouseholdCheck.**

Requires Admin Configuration.

10779: Prevent Errors When Setting Up Scanner Capabilities

Request Details: Prevent errors from generating when setting up scanner capabilities.

Resolution: Added checks and logging when scanner driver does not support setting capabilities.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

10935: Add more jury history information when checking in juror

Request Details: Juror history is added when they check in or clear the check in the attendance date

Resolution: Juror history for Check-ins now indicates which attendance date jurors is checking in for and each date will get logged.

11201: Add Verbiage for Obsolete Web Settings

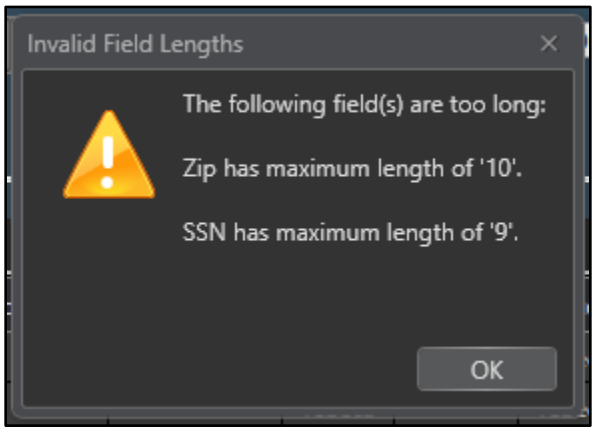

Request Details: JuryMark client should indicate when a setting is no longer applicable on web in the description

Resolution: Settings now state when a setting is obsolete in the description

103586: Add Restriction to Fields in the Juror Workspace

Expected Result: Field validation to limit the amount of characters on the Juror workspace.

Resolution: Field length validation across all screens now prompt a notification if too many characters are inputted.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0.0 Service Pack 74

Corrected Issues

18755: Juror Available Metric Not Updating

Request Details: Juror Available metrics are not being updated at the top of the Pool, Checkin and Panel workspaces.

Resolution: Issue where juror metrics were not updating has been fixed, along with Not Active showing in the excuse column.

19887: Excusal Start Date Defaults Differently

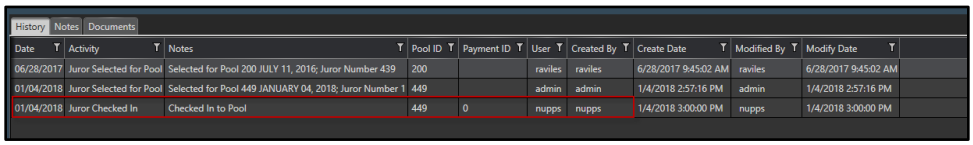

Request Details: When updating excusal from juror workspace, its start date should default to the pool's start date.

Resolution: Updating excusal from juror workspace now starts with the pool's start date.

20025: Duplicate Check-In Records

Request Details: If a juror checks in with more than one clerk only one check in record should be created.

Resolution: Fixed issue that cause multiple check in records to be created if a juror checked in with more than one clerk for the same pool.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Added Features

9599: Hide InActive Jurors Option

Request Details: Add functionality to automatically hide inactive jurors when manually adding jurors to a new panel.

Resolution: Added setting **DefaultHideInActiveJurors** that adds 'Hide Inactive Jurors' option on 'Manually Add Jurors Window' to hide inactive jurors.

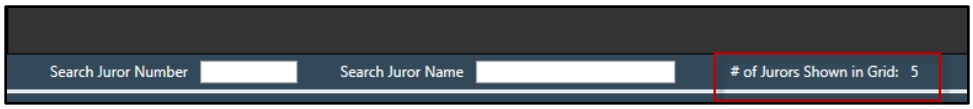

Requires Admin Configuration.

9602: Display Number of Jurors in Grid

Request Details: Users would like the check in screen to display the number of jurors displaying in the grid.

Resolution: Added the "# of Jurors Shown in Grid" to the bottom of the Check-In and Payments workspace.

9866: Disallow Deferment to Certain Days of the Week

Request Details: User wants to be able to indicate specific days of the week jurors are NOT allowed to be deferred to.

Resolution: Added setting **AllowedDeferredDays** that determines days of the week that jurors are able to defer/reschedule.

Requires Admin Configuration.

9912: Integrate SSRS Report Functionality

Request Details: Users would like to be able to run customized reports via report generating tool SSRS.

Resolution: Added Summons Letter SSRS and Cash Receipt SSRS Reports to Reports tab.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

9915: Allow Search by Barcode ID within Juror Workspace

Request Details: User would like to be able to search for Jurors in the Juror Workspace using a barcode search box.

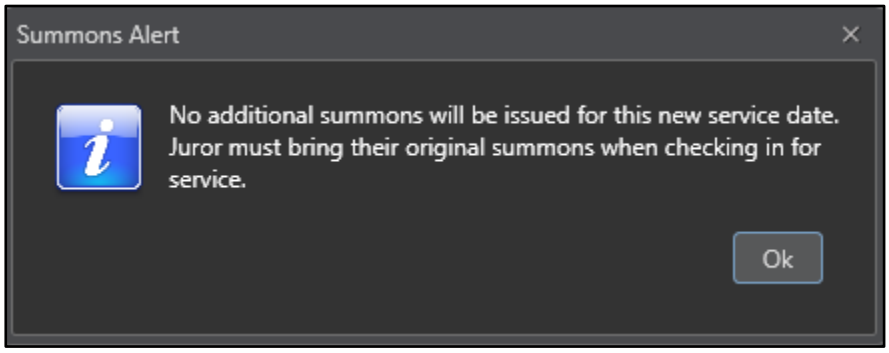

Resolution: Barcode search box has been added and users will now be able to search for jurors through the search box.

9917: Add Setting to Limit the Number of Allowed Postponements within a Period of Time (alert clerk)

Request Details: User would like a setting to be able to limit the number of allowed postponements within a certain period of time.

Resolution: New setting, **MinPostponeWeeksWarning**, has been added. If a new postponement date is selected and it is less than the number entered in the setting, a pop up alert will be displaced indicating a new summon will not be issued.

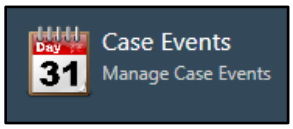

Requires Admin Configuration.

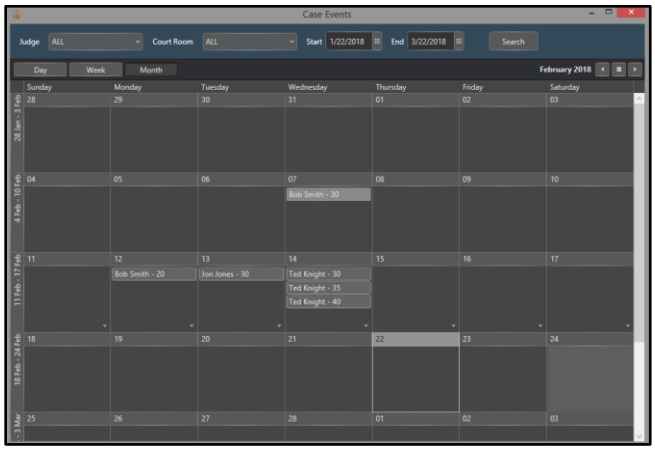

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

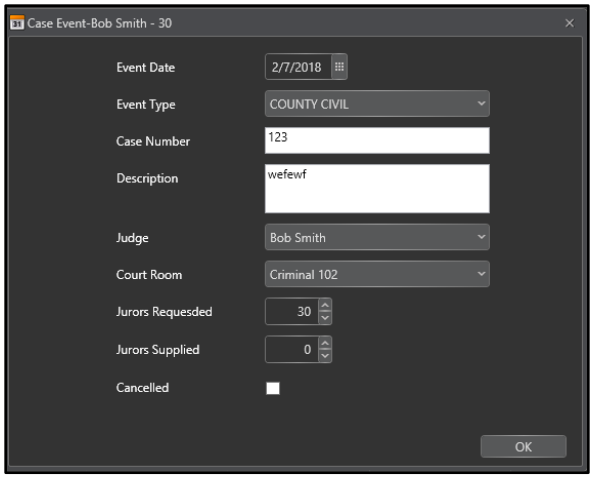

9961: Add Cases Event Functionality

Request Details: User would like a Case Events Management Workspace.

Resolution: New setting, **ShowCaseEvents**, has been added and the right, *CaseEvents.* When setting is set to true, users will have the option to Manage Case Events on the Pool Screen. Within the Manage Case Events, users will be able to see a calendar and be able to edit the events within the screen by selecting a specific event. A new tbale, Case Events, has been added as well.

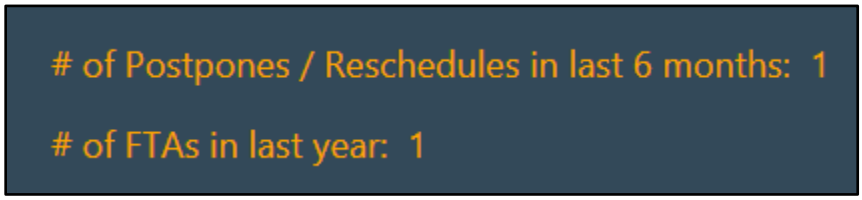

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

9972: Juror FTA Total

Request Details: User would like to be able to view the number of times a juror has been postponed and rescheduled, as well as the number of times the juror failed to appear.

Resolution: New settings, **ShowFailedToAppearCount**, **FailedToAppearPrevMonths**, and **IncludeFTAsInPostponeCount** have been added. Users will be able to see the FTA count of jurors and the number of postpones/reschedules.

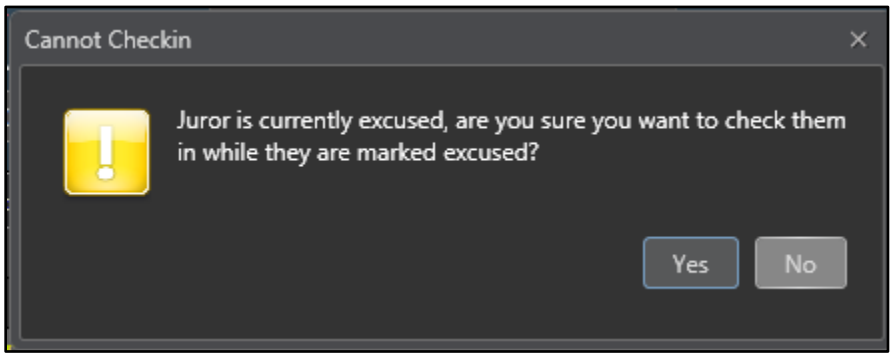

Requires Admin Configuration.

9978: Need a Pop-Up and Audio Alert if Juror Appears But Has Already Been Excused

Request Details: User would like to be notified by an audio alert as well as a pop-up window that the clerk or call center clerk is checking in an excused juror.

Resolution: If a juror is excused when trying to check-in and setting **CheckInExcuseValidation** is set to 1, a warning and a sound will alert users.

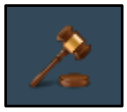

Requires Admin Configuration.

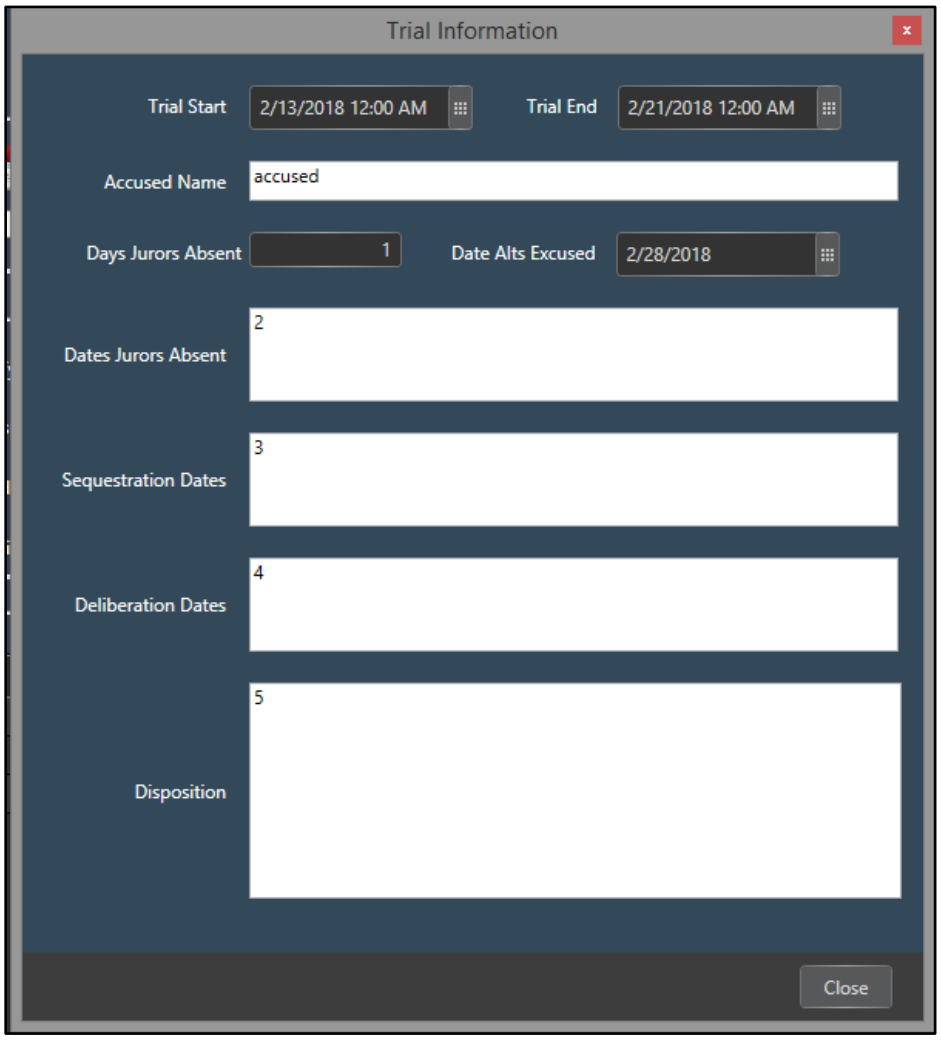

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

10014: Additional Fields Requested for Tracking Panel Details

Request Details: Users would like some additional fields added for each individual panel.

Resolution: A new setting, **ShowAdditonalPanelFields**, has been added. When this setting is true a button will show on the Panel Screen that will enable a pop-up window containing Trial Related Fields.

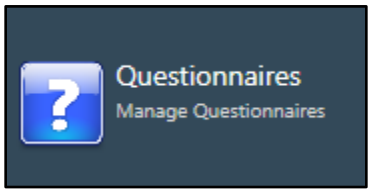

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

10063: Add Questionnaire Tables to Admin

Request Details: User would like to Questionnaire Tables to be access to Admin.

Resolution: Questionnaire Tables have been added and users will now be able to access them through Admin.

10102: Add Texting Service Functionality- Windows Client

Request Details: Users would like the ability to have a Texting Service to inform Juror Excusal Status and to be able to create custom reports to send texts.

Resolution: Users are now able to send email/text notifications when a Juror's Excusal Status is either Approved, Denied or Cleared if the setting **NotifyJurorExcusalStatus** is true. The Texting Number field must be filled out in order to receive text messages and the notify level must be either 2 or 3.

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0.0 Service Pack 66

Corrected Issues

19826: Pay Juror Button on Cash Payments Creating more than One Payment.

Expected Result: Double clicking the Pay Juror button on cash payments will create more than one payment.

Resolution: Fixed issue where Double-Clicking on Pay Juror Button could generate more than one payment.

19871: Rescheduled Juror not going into Pool Based on Reschedule Date

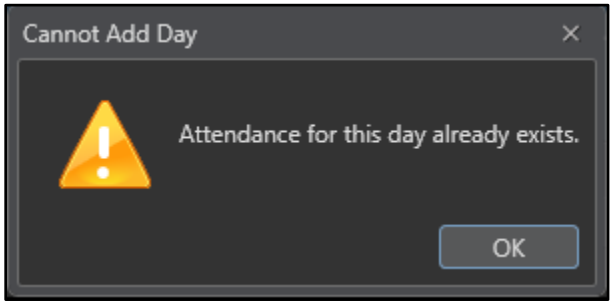

Expected Result: When a juror is being rescheduled for a different date, the juror should be going in to pools based on their reschedule date.

Resolution: A check has been added to prevent re-summoned jurors that are getting picked before their reschedule date.

19925: Checked In Jurors Not Showing as Checked In

Expected Result: While having two work stations to check in jurors simultaneously, checked in jurors were not showing on the panel.

Resolution: To prevent this from happening, two users are not able to create the same Check In day.

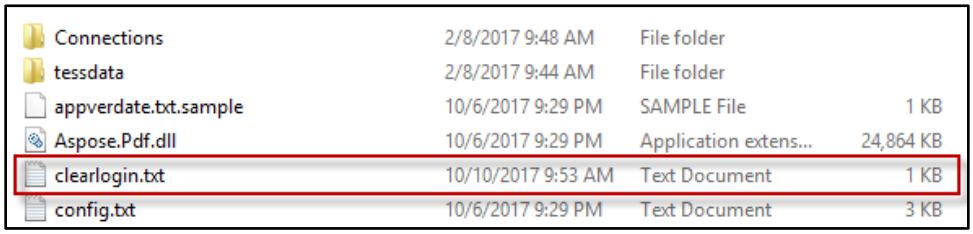

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Added Features

9600: Remove Last Logged In

Request Details: Users would like the login box to clear every time Jury is opened

Resolution: The login box will no longer retain the last username to sign in when a clearlogin.txt file is added to the local directory.

Requires Admin Configuration.

9601: Add Ability to Pass Attendance Date or ID to Report Parameter from Attendance Screen

Request Details: Add ability to pass attendance date or ID to report parameter from the attendance screen.

Resolution: The report parameter can now be added from Admin> Reports – Child parameters. It can then be used in the report SQL and it will get passed from the attendance screen.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

9604: Add Option to Select Check Assignment Order

Request Details: Users would like the ability to choose the order that the juror names are sorted prior to assigning their check numbers.

Resolution: Check numbers will now be assigned to jurors in the order specified by the **CheckAssignOrder** setting. Setting the value blank will default to sort by the voucher number, otherwise user may input a string in the order that they please where F=First Name, M=Middle Name, L=Last Name, S=Suffix

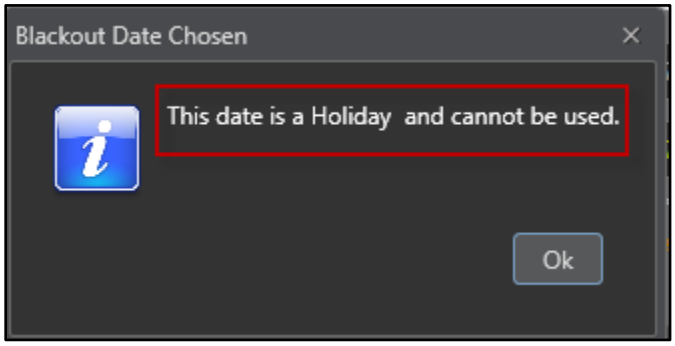

Requires Admin Configuration.

9608: Restrict Reschedules Dates Based on Blocked Off Dates

Request Details: When users are rescheduling jurors, they would like Jurymark to not allow rescheduling on holiday blocked off days that are added to the Lookup List.

Resolution: When rescheduling jurors, if the dates are listed in the Lookup List, jurors will not be able to be rescheduled on holiday or blocked off days. The Lookup List may be accessed **Admin>Lookup List** and here is where admin can add holidays and blocked off days where scheduling may not occur.

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

9610: Bulk Email Setting Options for Hiding Sections

Request Details: Remove the bad and no emails sections from Bulk Email Report if there is no data to be displayed.

Resolution: Bulk Email Report sections for bad or no emails are hidden unless there is something to report.

9633: Track Number of Times Juror has been Postponed

Request Details: Display a tracker for the number of times a juror has been postponed.

Resolution: Added new setting **ShowPostPonedCount** that displays number of Juror has been rescheduled. If true, the number of times a Juror has rescheduled win the last year will appear.

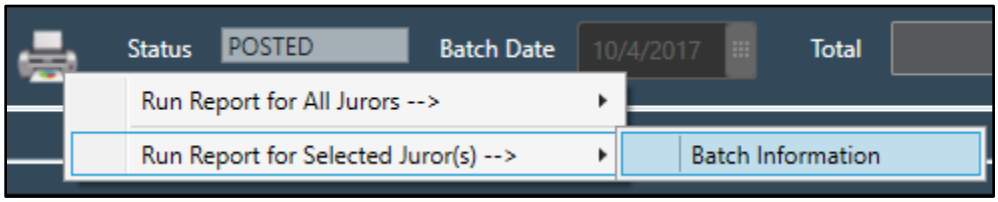

Requires Admin Configuration.

9676: Juror Payment Workflow Streamlining

Request Details: Prior to this version, users would have to leave the payment screen in order to view the outstanding payments report. This workflow is not optimal for users. There should be able to run the outstanding payments report from the payments workspace.

Resolution: The report can now be accessed from the payments workspace via the print button once a juror is selected.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

9714: Option to not Log Printing Report to Juror History Table

Request Details: Add option to not log printing report to juror history table.

Resolution: Added setting, **JurorReportLogging** that controls if a history record is added when a report is emailed and/or printed. Setting the value 0 adds record when printed or emailed, value 1 add record when emailed only, value 2 add record when printed only, and value 3 does not add any records. 4 allows you to choose to log to juror history when you print the report.

Requires Admin Configuration.

9715: Deleting a Pool will Update Last Date Summoned

Request Details: Deleting a Pool with Jurors assigned does not clean up, but it should, the last date summoned from the juror table.

Resolution: Deleting a Pool now updates Date Last Summoned for Jurors.

9737: Add Right for Adding Juror

Request Details: Add Right for Adding Juror

Resolution: Added New Right: AddJuror – user must now have this right in order to add new juror on Juror Screen

9738: Validate Outstanding Payments Using Date Ranges

Request Details: Users were receiving an error when validating outstanding payments while using Date Ranges.

Resolution: When validating the outstanding payments in the Date Range, users should no longer have an error occurring.

9798: Show Last Checkin Date for Pool

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Request Details: Show Last Checkin Date for Pool somewhere on Juror Screen.

Resolution: Last Checkin Date for Pool now shown as Tooltip over “Last Summoned” label.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Release 1.0.0 Service Pack 54

Corrected Issues

18865: Spelling Errors

Request Details: On the Pools screen, Appearance Date should be correctly spelled. On the Panels screen, Voir Dire Start and End dates should be correctly spelled.

Resolution: Spelling corrections have been made.

18870: Panel Attendance Records Not Saving

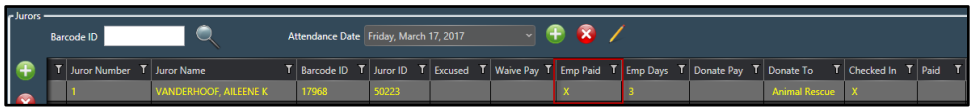

Expected Result: When adding an attendance record for a panel, changing screens should not delete the attendance record.

Resolution: When an attendance date is added to a panel, leaving the attendance screen will no longer clear the date.

18873: Employer Paid Not Saving

Expected Result: The employer paid checkbox on the kiosk screen should save

Resolution: When the employer paid checkbox is selected on the kiosk screen it is now saved to the panel screen.

18933: Excusal Status not Updating

Expected Result: Juror excusals being approved or denied should reflect immediately under the juror's notes.

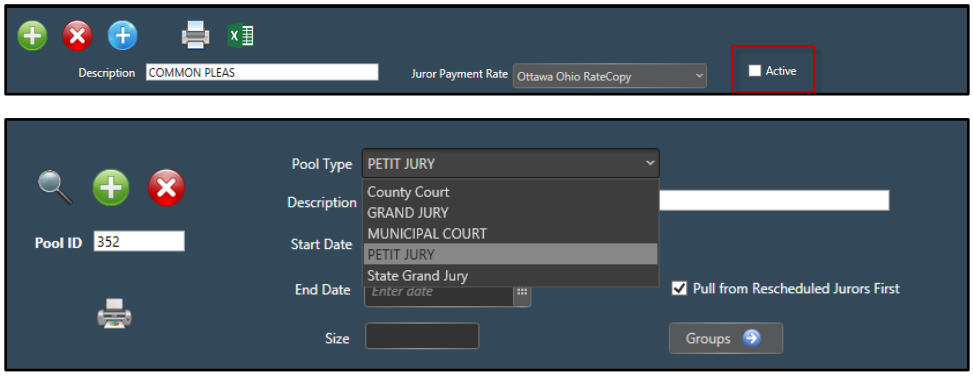

Resolution: Excusal status under the notes tab will not update in accordance to the actual excusal status.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

19304: Pool Screen Ignoring Inactive Pool Types

Expected Results: Users should not be able to set a pool to a type that has been made inactive.

Resolution: Inactive pool types will no longer be available on the pool screen. Pool types can be made inactive via **Admin > Pool Types.**

Requires Admin Configuration.

19323: Inactive Juror Excusals Appearing in Panel Workspace

Expected Result: Juror excusal reasons that have been made inactive should not appear in the panel workspace.

Resolution: Inactive juror excusal reasons no longer appear in the panel workspace.

19338: Report Print Options

Expected Result: More print options should be available when printing reports, such as duplex printing.

Resolution: New setting **UseAltCrystalPrintDialog** has been added. If it is enabled, users will have access to more printer properties when printing reports versus what was regularly available.

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

19394: Panel Screen Displaying Inactive Panel Types

Expected Result: Only active panel types should display on the panel screen

Resolution: Now only panel types that are marked active will be available on the panel screen.

19395: Default End Date Range not Applying on Panels

Expected Result: End date should auto populate on panels based on the configuration set up for them under Pool Types.

Resolution: Panel end dates now respect their defaults.

19401: Incorrect Pool Description

Expected Result: When a juror is switched from one pool to another the excused column is populated with the wrong pool information.

Resolution: Fixed error where the wrong pool number was being displayed

19456: Courtroom List in Panel Workspace Not Reflecting Active Courtrooms

Expected Result: Only courtrooms that are marked as active should appear in the panel workspace

Resolution: The panel workspace is now only showing courtrooms that are active in **Admin > Court Rooms.**

Requires Admin Configuration.

19462: Juror History Record Populated when Removing Juror from Panel is Incomplete

Expected Result: If a juror is removed, the jury history will display the panel id number is was removed from.

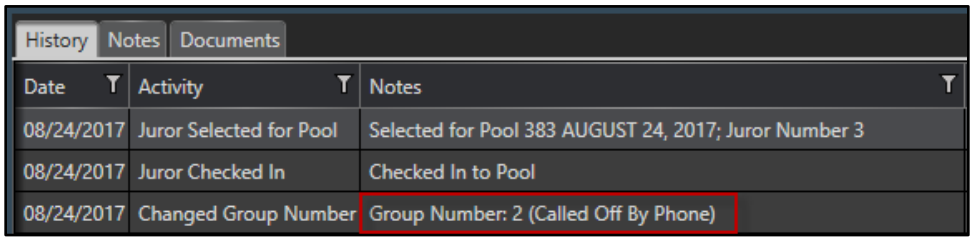

Resolution: Fixed issue with juror history record when removing jurors from panels.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

19481: Juror History not Being Generated

Expected Result: When a juror is switched into a group that has been called off by phone, it should be noted in their juror history.

Resolution: It is now noted when a juror is called off by phone.

19538: Unable to Paste Setting Values

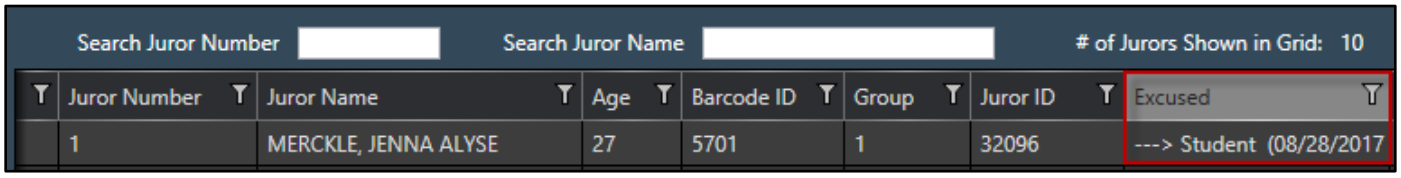

Expected Result: Users should be able to paste multiple lines of text.

Resolution: Users can now paste multiple lines of modified text into the settings table.

19584: Juror Status/Excusal Did Not Update in Pool Workspace

Expected Result: Juror excusal status should be updated within the Pool and Check-In screens.

Resolution: Issue has been fixed where juror excusal status was not updating after the changes were made to their status in the Pool and Check-in screens.

19586: Same Day Pay Slowness

Expected Result: Users should not experience slowness when submitting juror payments.

Resolution: Fixed issue with users experience slowness when submitting payments.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

19826: Pay Juror Button on Cash Payments Creating more than One Payment.

Expected Result: Double clicking the Pay Juror button on cash payments will create more than one payment.

Resolution: Fixed issue where Double-Clicking on Pay Juror Button could generate more than one payment.

Added Features

6528: Keep Juror Details State

Request Details: Need to keep state of current juror jury selection and excusals, postponements and dates that go along with these, and the option to deny juror excuses.

Resolution: Juror excuses can now be denied. If a juror is excused, that juror cannot be selected for a panel. Additionally, a juror can now be on more than one Service Pool from a Master Pool - controlled by new Pool "Active" status.

6529: Allow Checking in of Jurors in a Pool

Request Details: Need to Allow Checking in of jurors in a pool on multiple days and indicate employer paid or donate pay.

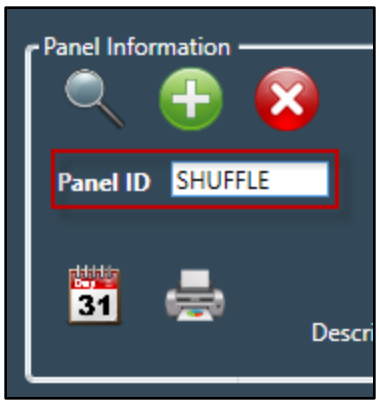

Resolution: Employer paid and donate pay columns added to the Check In workspace. Jurors can be checked in for a pool on multiple days.

6536: Shuffle Jury Panel

Request Details: Need the ability to shuffle a Jury Panel into random seats.

Resolution: Typing "shuffle" into the Panel ID search box and pressing enter once a panel is selected from the panel screen will randomly reorganize the panelists.

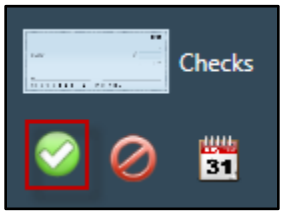

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

6548: Generate Check Numbers

Request Details: There should be a way to automatically generate and assign check numbers from the Payments workspace.

Resolution: Button added to the Payments screen which sets the check number to the next available number or to a user selected number.

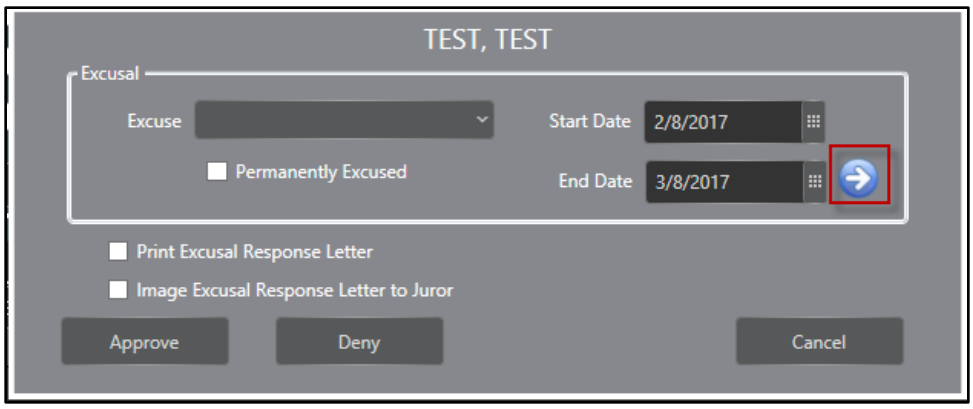

6957: Multiple Excuse Dates

Request Details: Users would like to be able to add multiple excused date ranges.

Resolution: Added new setting **AllowMultipleExcuseDates** that allows users to add multiple excused date ranges.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Requires Admin Configuration.

6954: Default Pool Type

Request Details: Users would like the ability to have a specific Default Pool type be selected whenever a new pool is created.

Resolution: Setting **DefaultPoolTypeID** added. It allows users to set a Default Pool type based. The setting value corresponds to the ID of the Pool Type table ID users want set as default.

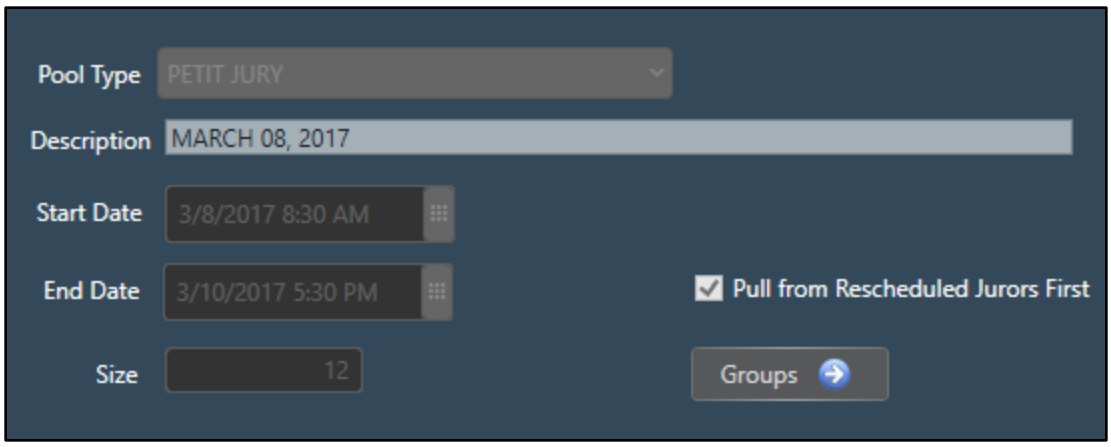

Requires Admin Configuration.

6955: Configurable Pool Workspace Lockdown

Request Details: Must have a way to prevent pool information from being modified once jurors are added to the pool.

Resolution: New right *CanModifyPoolAfterJurorsAdded* has been added. If a user does not have the right, once pools are populated with jurors, the user will not be able to modify pool information.

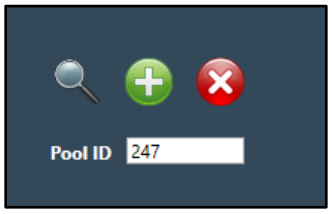

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

6956: Assign a Unique Pool Number

Request Details: Users would like a unique number to be assigned to each juror pool.

Resolution: Unique numbers are assigned to juror pools when they are created. Added new settings **CalendarWeekRule, DayOfWeek,** and **PoolDescriptionFormat.** These settings can be used to configure the unique pool number that is assigned as well format of the pool description that is automatically filled.

Requires Admin Configuration.

6958: Default Attendance Date

Request Details: Users would like the option to set a default attendance date.

Resolution: Users now have the option to set a default attendance date. This is controlled by new setting **DefaultCheckInAttendanceDate.** When this setting is set to 0, Jury will not use a default attendance date. When this setting is set to 1, Jury will default to the last date used. When this setting is set to 2, Jury will prompt the user to create a new attendance date.

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

6959: Clear Grid Filters

Request Details: Users would like a simple way to clear filters that have been applied to a column on the grid.

Resolution: Grid filters can now be cleared by right clicking the top of the column.

6960: Add Juror to Pool

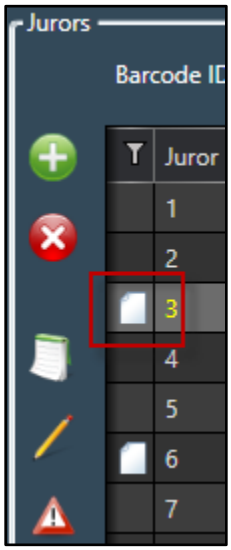

Request Details: Users would like the ability to add one juror to a pool from a different pool.

Resolution: Jurors can now be moved into a different pool as long as they are not checked in to their original pool.

6962: View Juror Documents

Request Details: Add the ability to view a juror's documents from the Check in or Pools workspaces.

Resolution: Jurors that have documents associated with them now have a paper icon by their name that can be double clicked to display the document. The same outcome can be had by selecting a juror entry and using the **CTRL+J** hotkey.

6967: Track Change of Address

Request Details: Jury should keep track of when juror's addresses change.

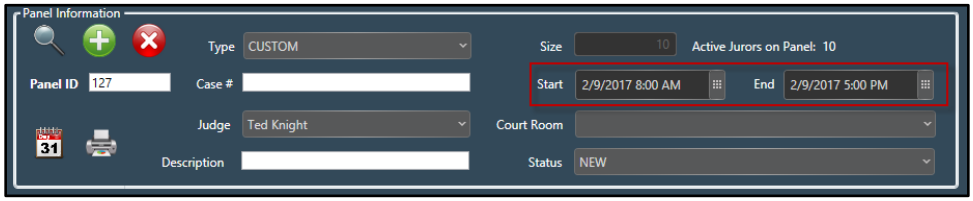

Resolution: The History table will now track when a juror's address changes. The description will be 'Address Changed' and the notes will contain the old and new addresses.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

6970: Call Back Date

Request Details: Users would like to be able to set the dates for juror panels.

Resolutions: Added a date range for juror panels

6975: Panel Attendance

Request Details: Users would like the ability to track attendance by date as well as by individual juror.

Resolution: Added the attendance workspace. Here, users can track juror attendance by date.

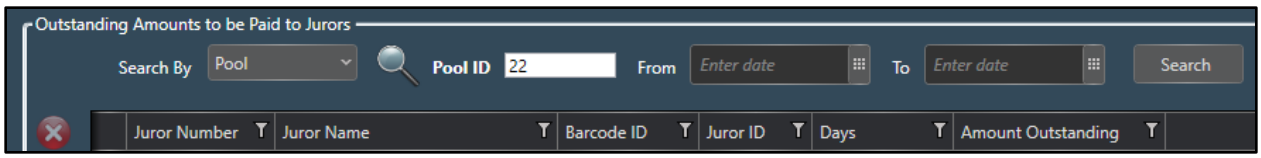

6977: Payments Workspace Enhancements

Request Details: Users need the ability to create payments by pool, panel, or date range and to selectively remove jurors from batches.

Resolution: Users need the ability to create payments by pool, panel, or date range and to selectively remove jurors from batches.

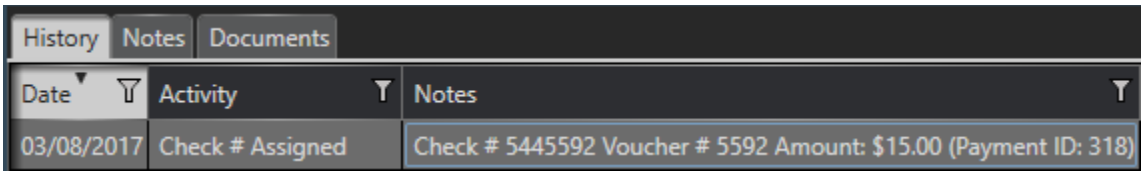

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

6981: Update Juror History for Checks

Request Details: The history tab for juror should keep track of check payment information.

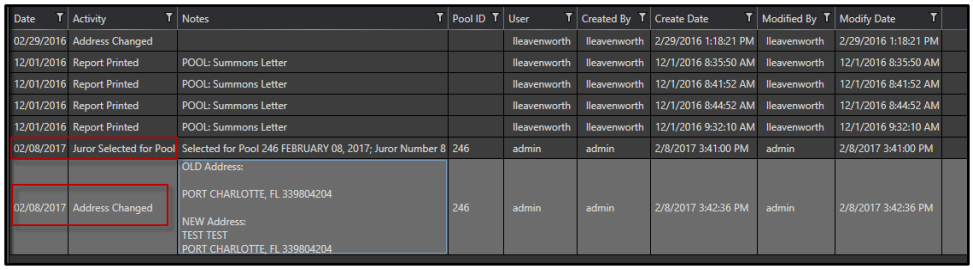

Resolution: When a check is issued to a juror, the history tab will now keep track of it.

6983: Juror History

Request Details: Users would like the juror history grid to be updated when pool and panel events occur.

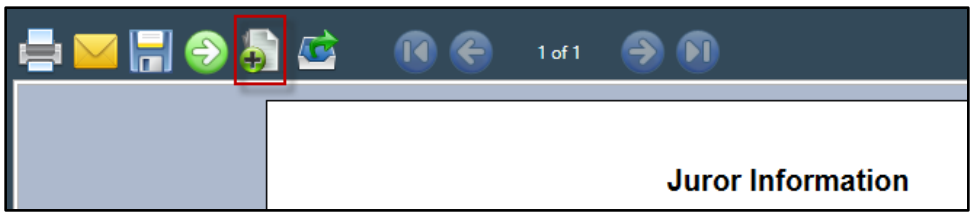

Resolution: Juror history is now updated when pool and panel events occur.

6988: Image Report to Juror Documents

Request Details: Reports that are tied to a specific juror should be able to be saved as an image on that juror's records.

Resolution: New button added that saves the current report to the selected juror's documents.

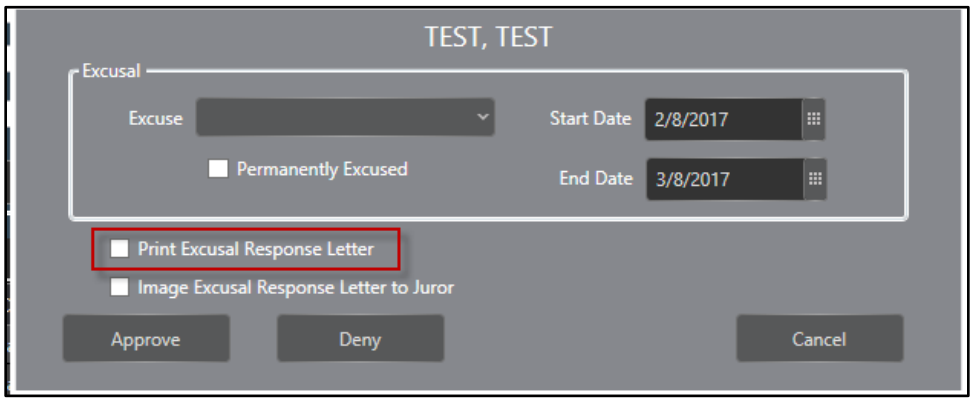

6990: Process Excusal Requests

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

Request Details: Users would like to be able to process excusal requests from the juror screen.

Resolution: Users can now process excusal requests and print the excusal form from the juror screen.

7026: Protections on Jurors with Attendance Records

Request Details: Jurors who have an attendance record should not be removed from pools.

Resolutions: Added protection to prevent removing pool or panel jurors with attendance records.

7040: Edit Voucher and Check Numbers

Request Details: Allow voucher and check numbers to be edited in the payments grid.

Resolutions: Voucher and check numbers can now be edited in the payments grid.

7042: Jurors in Upcoming Pool

Request Details: Jurors should not be added to a pool if they already exist on an upcoming pool.

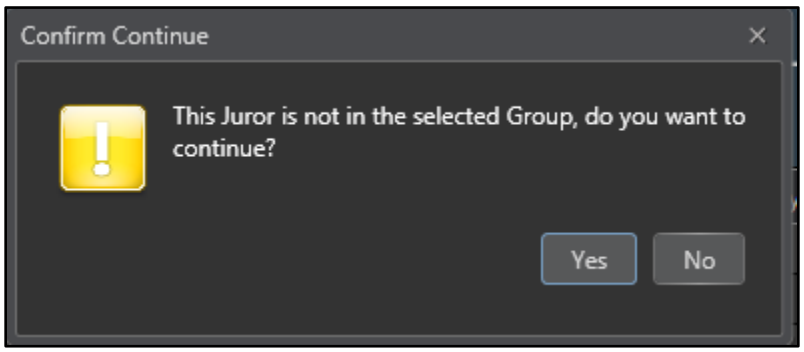

Resolutions: Jurors that exist on an upcoming pool can no longer be added to a new pool.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

7093: Jurors in Different Group

Request Details: Users would like to be warned when they are checking in a juror that does not belong to pool group.

Resolution: When a user attempts to check in a juror from a different pool group than the one they selected, Jurymark will now throw a warning prompt.

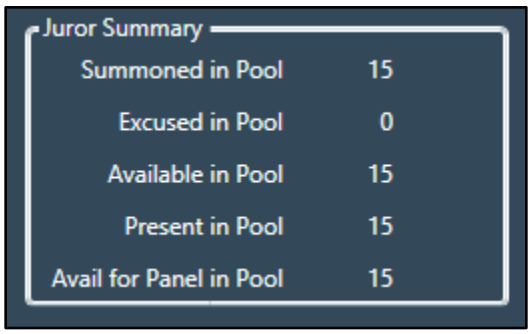

7094: Juror Summary

Request Details: Users would like the juror metrics to be displayed at the top of relevant workspaces.

Resolution: Added the following juror metrics to the Pool, Check in and Panel screens:

- Summoned
- Excused
- Available
- Available for Panel

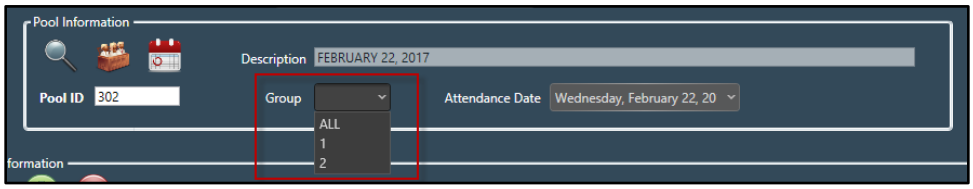

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

7095: Panel From a Specific Group

Request Details: Users would like the ability to create a panel from a specific pool group.

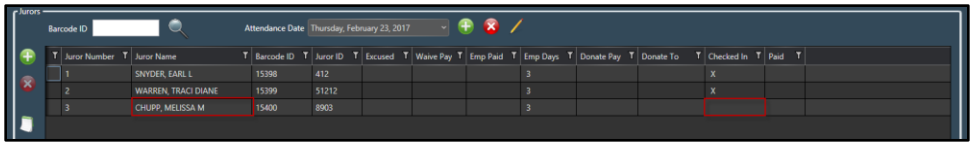

Resolution: Added group drop down. Selecting a group from this drop down will only add jurors included in that group to the panel.

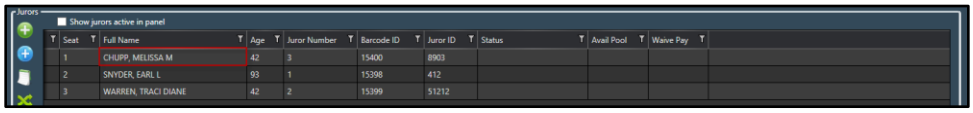

7096: Add Jurors that have not Checked in to a Panel

Request Details: Users would like a way to add jurors that have not checked in to a panel.

Resolution: Added new setting **AllowNonCheckedInJurorsOnPanel.** Now, jurors that have not been checked in can still be added to a panel. When this setting is enabled, users do not need to use the check in screen at all. When this setting is disabled, workflow resumes as usual.

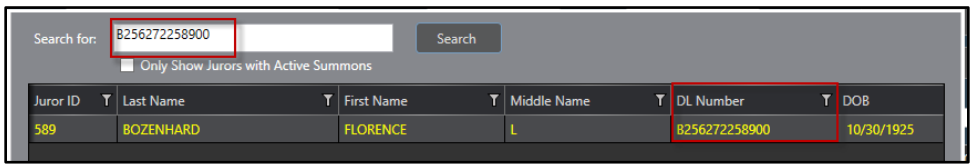

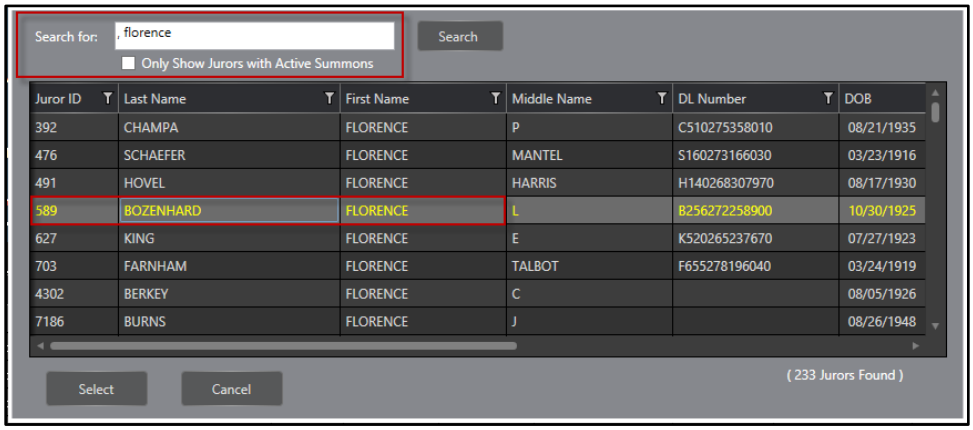

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

7097: Search by First Name and Drivers License Number

Request Details: Users would like to be able to search for jurors by first name and DL Number.

Resolution: Added the ability to search for jurors by first name and DL number. When searching by first name, include a comma before the name. Without a comma Jury will search by last name

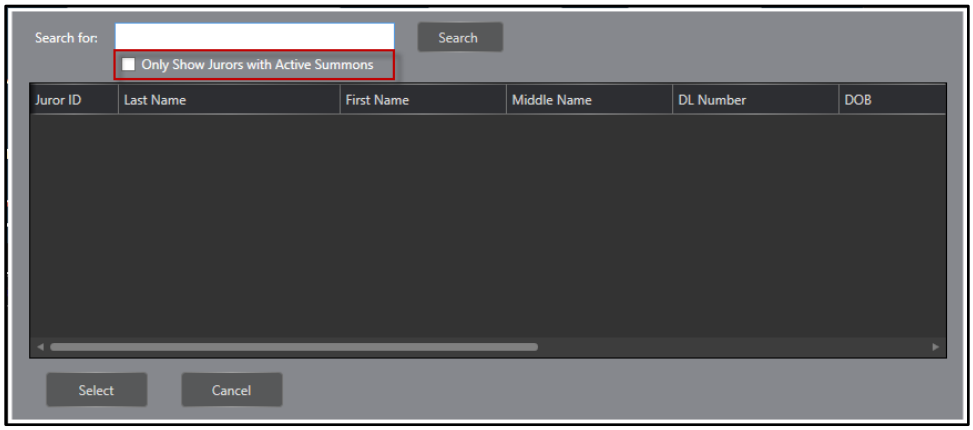

7098: Only Show Jurors With Active Summons

Request Details: Users would like the option to only view jurors with active summons.

Resolution: Added checkbox to the juror search screen that allows users to only view jurors with active summons.

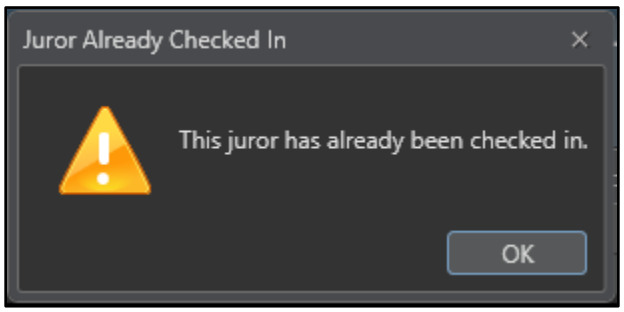

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

7101: Checkbox and Barcode Method

Request Details: When checking in a juror on the grid, checking them in with the barcode method should not cause an error

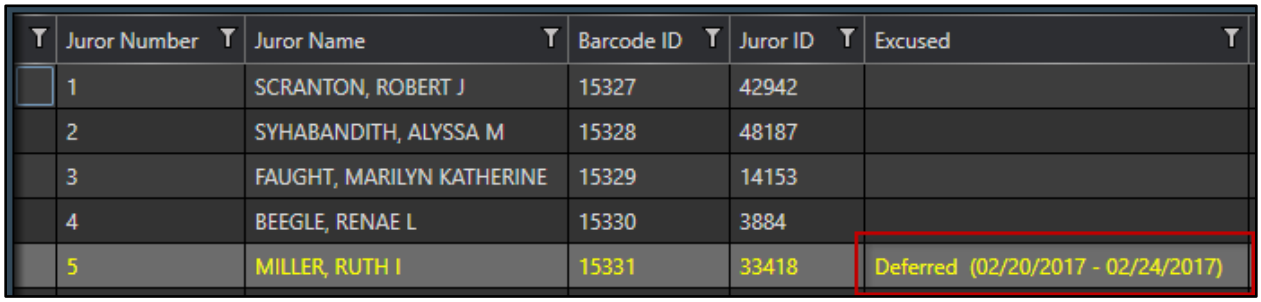

Resolution: When attempting to check in a juror that has already been checked in, Jury will throw a warning message

7103: Excuse Checked in Jurors

Request Details: Need the ability to excuse jurors after they have checked in. Their status should display on the row for the juror that was excused.

Resolution: Checked in juror can now be excused. Their excusal will be displayed on the grid once this action is taken.

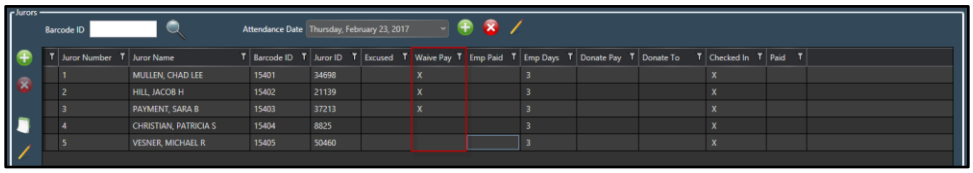

Juror Number	Juror Name	Barcode ID	Juror ID	Excused
1	SCRANTON, ROBERT J	15327	42942	
2	SYHABANDITH, ALYSSA M	15328	48187	
3	FAUGHT, MARILYN KATHERINE	15329	14153	
4	BEEGLE, RENAE L	15330	3884	
5	MILLER, RUTH I	15331	33418	Deferred (02/20/2017 - 02/24/2017)

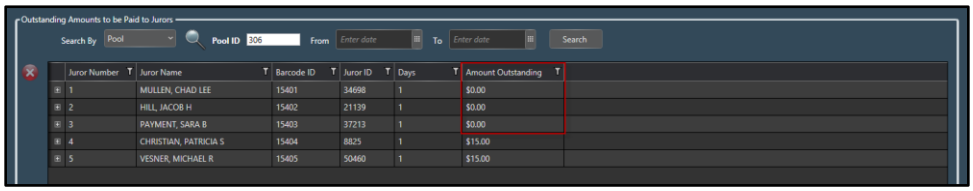

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

7104: Waive Payment

Request Details: Users would like a way to flag which jurors should not be paid.

Resolution: Added waive payment flags to the check in and panel screens. Jurors with this box checked will have an outstanding amount of 0 on the payment screen.

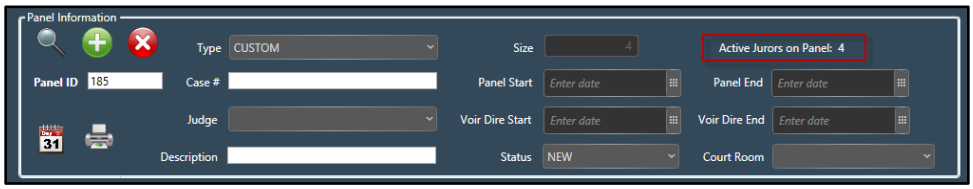

7105: Panel Attendance

Request Details: Users would like to see how many jurors have been seated on a panel

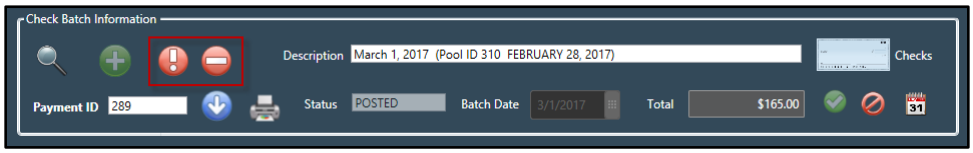

Resolution: Added option to show jurors that are active in panel. This will show jurors with a blank status or a status of seated.

7120: Void Individual Check

Request Details: Users would like the ability to void an individual check.

Resolution: Added new Void and Un-Void check button to the payment screen.

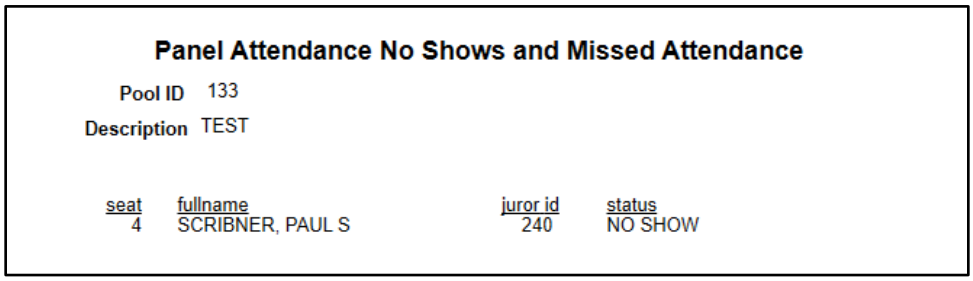

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

7126: Allow Tracking of Jurors that Fail to Appear

Request Details: Users would like to track jurors that fail to appear

Resolution: Added new reports PANEL: No Shows and Missed Dates and POOL: Failed to Appear. These reports display jurors who failed to appear in the given workspace.

Panel Attendance No Shows and Missed Attendance

Pool ID 133

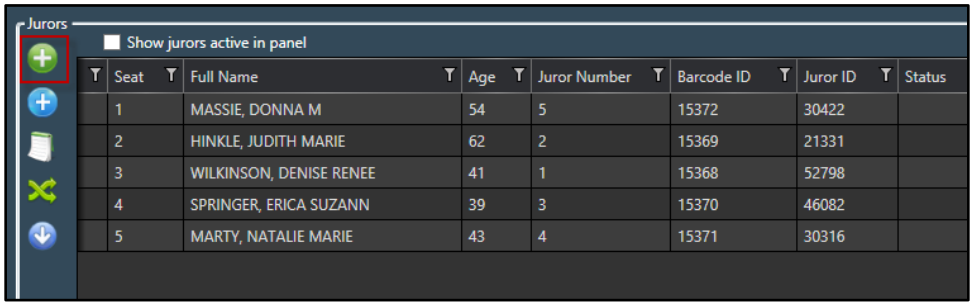

Description TEST

seat	fullname	juror id	status
4	SCRIBNER, PAUL S	240	NO SHOW

7162: Fill Panel Seats

Request Details: Users would like an option to fill panel seats when choosing a panel.

Resolution: Added new button to randomly fill panel seats based on available jurors in a given pool.

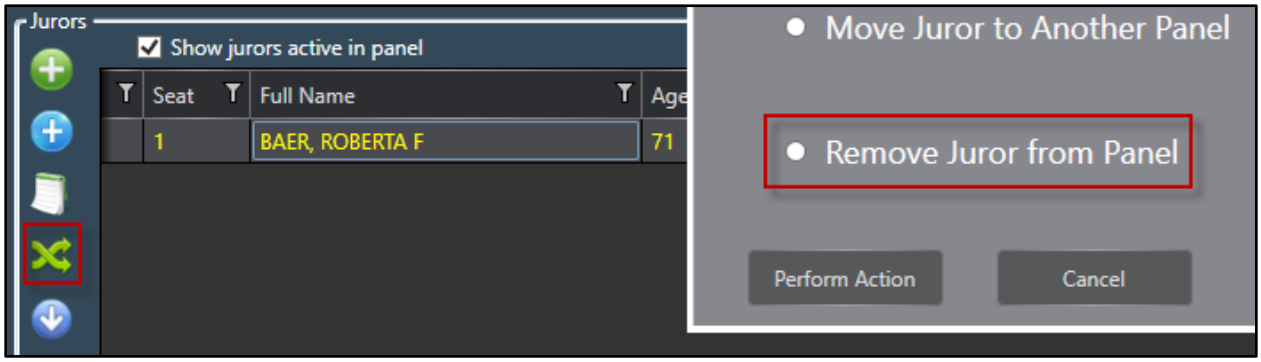

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

7163: Remove Jurors from Panel

Request Details: Users would like the ability to remove jurors from a panel. This should only be allowed the jurors have no attendance records existing.

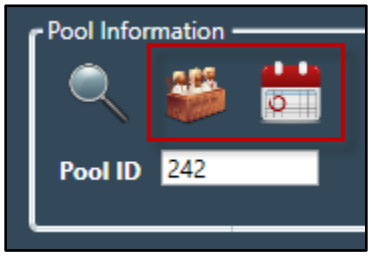

Resolution: Users now have the ability to perform the "Remove Juror from Panel" action on a juror in a panel. The system will let you know if the juror can be successfully removed once it is attempted.

7164: Pool and Panels Navigation Shortcuts

Request Details: Users request ways to quickly access panel and pool information from the panels workspace.

Resolution: Panel and pool information shortcuts added to the panel workspace.

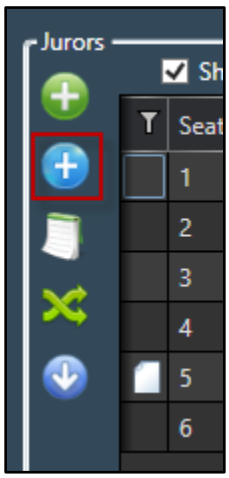

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

7182: Move Jurors from Pool to Pool

Request Details: Users need a way to move jurors from one pool to another.

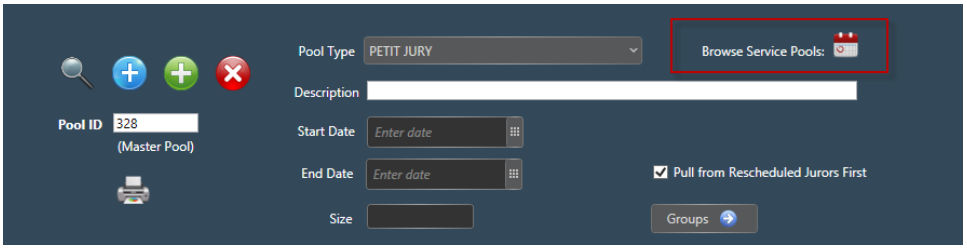

Resolution: A blue button has been added to the Panels workspace. It allows for the manual adding of jurors to the currently selected panel. Jurors can still be removed from same menu as before, from the green arrows button.

7185: View all Sevice Pools in Master Pool

Request Details: Users would like to be able to view all service pools in a master pool

Resolution: Added ability to browse service pools when viewing a master pool

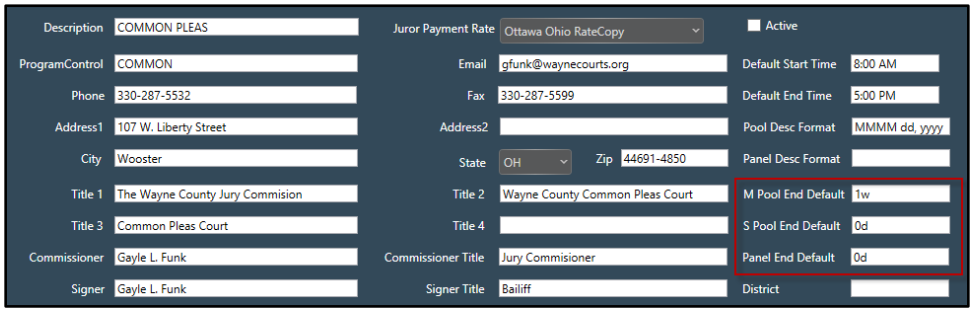

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

7195: Default End Date

Request Details: Users would like to be able to set the default end date for master and service pools.

Resolution: Users can now use the new settings **MasterPoolEndDateDefault** and **ServicePoolEndDateDefault** to set the default end dates on all screens. Default end dates will match these settings as they appear in Pool Types and Panel Types.

7201: Juror ID Filter

Request Details: Users would like to be able to search by juror ID on all screens

Resolution: Added Juror ID filter to search windows.

7354: Juror Last Summoned Date

Request Details: When a juror is summoned, the last summoned and last served dates need to update.

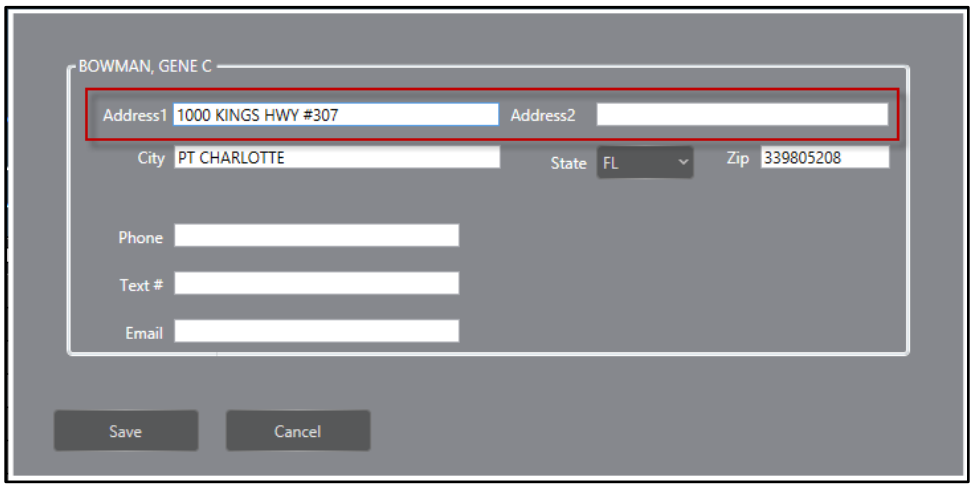

Resolution: Juror Last Summoned and Juror Last Served dates are now being properly updated.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

7377: Address Fields on Edit Juror

Request Details: Users would like a way to edit a jurors address

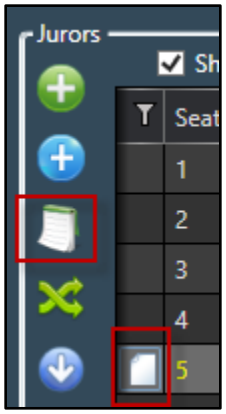

Resolution: Added address fields to the edit juror pop-up.

7378: Scan Column in Panel Screen

Request Details: When viewing the jurors on a panel, there should be a dedicated column that shows which jurors have documents associated with them.

Resolution: Juror entries now display a paper icon when there is a document associated with them. To add a document to a juror, select the juror and use the **CTRL+J** hotkey or select the Juror Documents icon as seen below. After the document is added, the paper icon will display.

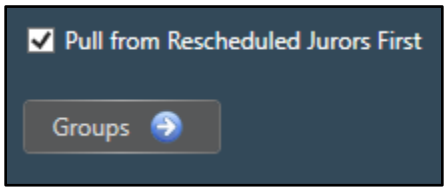

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

7379: Pull Reschedules First Default

Request Details: Users need a way to prioritize rescheduled jurors be pulled into pools before regular jurors by default.

Resolution: Setting **DefaultPoolReschedulesOn** has been added. If it is enabled, the checkbox below will be automatically checked when creating new pools.

7429: Opening Juror Sets All Parameters

Request Details: Opening the juror screen should not set parameters on all reports

Resolution: Fixed issue where opening the juror screen was updating report parameters.

7480: Rename PANEL to Jurymark

Request Details: PANEL should be called Jurymark.

Resolution: PANEL is now Jurymark.

7578: Massage Data Before Importing

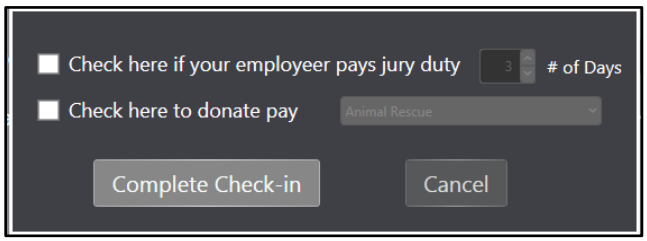

Request Details: Allow *CleanStageData* stored procedure to be called before juror data is displayed.

Resolution: Irrelevant data (wrong county, etc.) shouldn't pull when displaying juror information. Running the *CleanStageData* stored procedure will clean up irrelevant data.

7596: Check in Kiosk Verbiage

Request Details: Users would like meaningful verbiage on the check in kiosk.

Resolution: The text on the check-in kiosk is now significantly more meaningful.

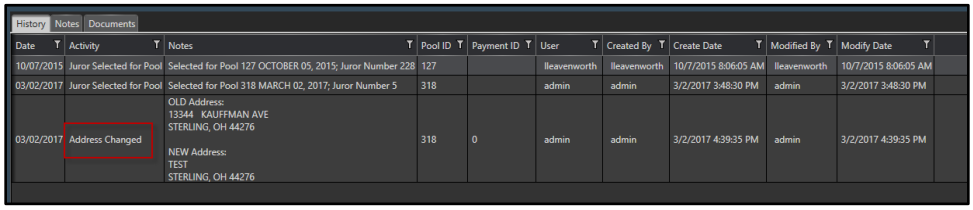

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

7606: Juror History for Address Change

Request Details: Users would like the juror history to update when a juror's address is changed.

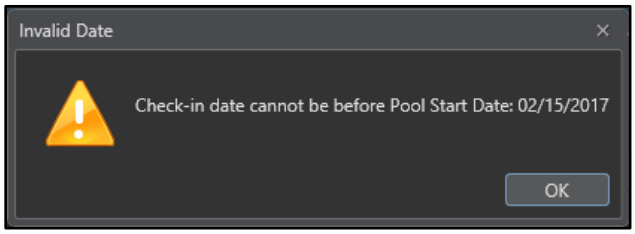

Resolution: Juror history is now updated when a juror's address is changed.

7677: Do Not Allow Start Date Prior to Pool Date Range

Request Details: When starting a panel, the start date should not be able to be set prior to the pool date range.

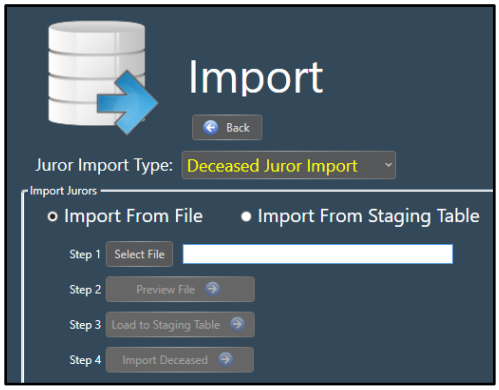

Resolution: Added panel date range validation.

7678: Import Deceased File

Request Details: Need a way to import a file containing deceased jurors.

Resolution: From within the Import workspace (found in the admin menu), there is now an interface which allows users to import text files with deceased juror information. The system will check for duplicates before the import is complete.

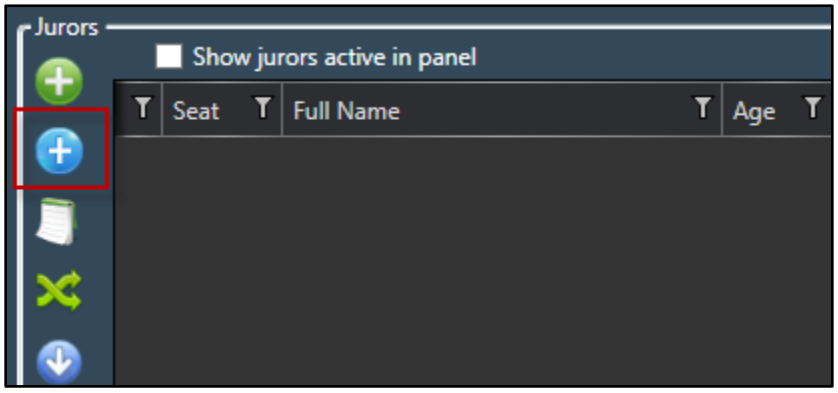

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

7682: Manually Add Jurors to Panel

Request Details: Users would like a way to manually add jurors to a panel.

Resolution: Added new Manually Add Jurors to Panel button to the panel screen. Users can pick a juror from the pool to add to a panel. This button is controlled by the new setting **ShowPanelManualAddJurors.** When this setting is set to true the button will appear. When this setting is set to false, the button will not appear.

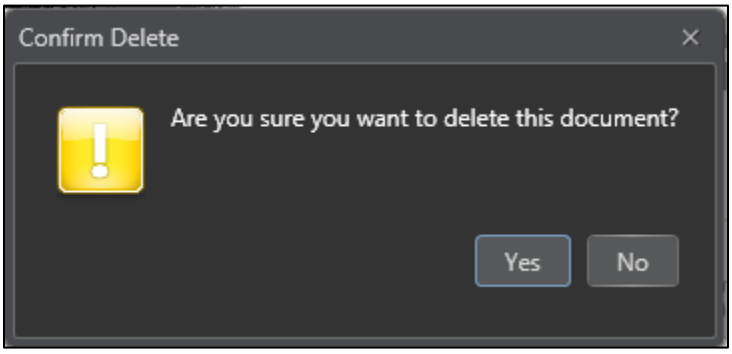

Requires Admin Configuration.

7944: Delete Prompts for Images

Request Details: Users would like a warning prompt when deleting or replacing images

Resolution: Prompts are now thrown when a user attempts to delete or replace images. Added new right **Delete and Replace Images.** Prompts will only throw for users that have this new right added.

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

8033: Adding and Deleting Pools

Request Details: Users would like a new right to determine who can add and delete pools.

Resolution: Added new rights **AddPool** and **DeletePool** to control which users can add and delete pools without an admin override. Users with these rights added are able to add and delete pools, users that do not have these rights require an admin override.

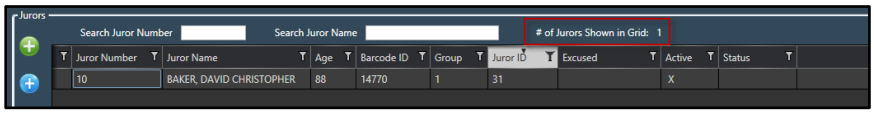

Requires Admin Configuration.

8034: Show Juror Count in Groups

Request Details: Users would like to see how many jurors are in the current pool.

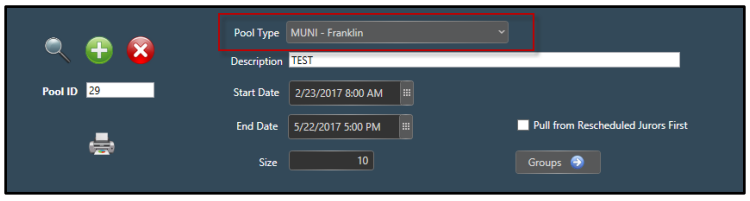

Resolution: Now showing the number of jurors in the pool screen. When I filter the table to show one juror, this number updates itself.

8309: District Column

Request Details: Users would like a way to add jurors from only the specified district.

Resolution: Added pool type drop down. When a district is selected, only jurors from that district will be added to the pool.

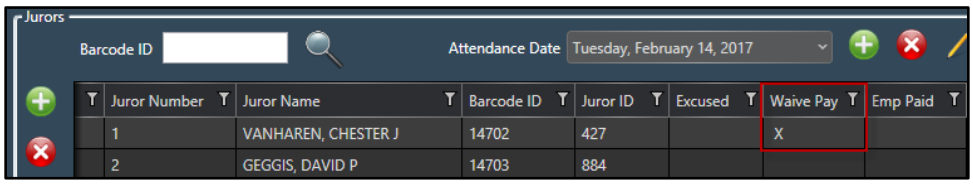

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

8311: Waive Payment for Jurors

Request Details: Users would like the ability to waive payment from jurors

Resolution: Users can now waive payments from jurors on the Checkin and Panel Action screens. New setting **ShowOptionToWaivePayment** was added to Admin > Settings. When enabled, this setting displays the waive payment column.

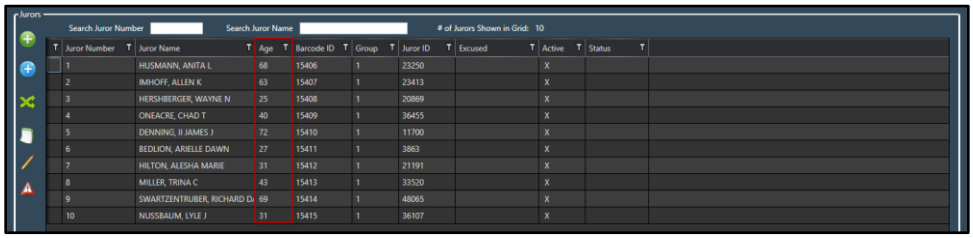

Requires Admin Configuration.

8348: Juror Age

Request Details: Users would like to be able to view jurors age from the pool screen.

Resolution: Added age column to the pool screen. The visibility of this column is controlled by the new setting **ShowAgeInGrids.** When set to true, this setting enables the age column. When set to false, the age column does not appear.

Requires Admin Configuration.

8349: Attendance Record Update

Request Details: When a juror's status on a panel changes, the seated flag for that juror's attendance record should be updated to 1 to indicate seated.

Resolution: Changing the status from a panel for a juror now updates their attendance record on the *PanelAttendanceJuror* table and sets the seated flag to 1.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

8351: Hide Zero Amounts

Request Details: Need the ability to hide zero outstanding amount entries for jurors from the Payments screen.

Resolution: New checkbox placed at the bottom of the Payments screen called "Hide Zero Amounts" which will hide any Jurors whose outstanding amount is zero dollars.

8524: Export for State Grand Jury

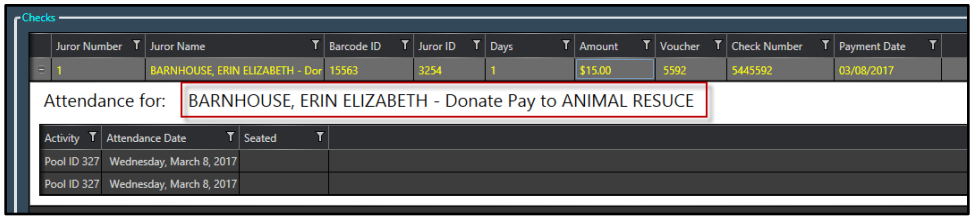

Request Details: Users would like the ability to export state grand jury information

Resolution: Added new state grand jury report.

8649: Donate Pay

Request Details: Users would like the ability to track when a juror opts to donate pay

Resolution: Users can now track which jurors opt to donate pay

8867: Cash Payment Module

Request Details: Users would like the ability to pay jurors cash for their same day service.

Resolution: Added new cash payments module to the payments screen. Added the following new settings:

- **AllowCashPayments** - If true, the cash payment screen will appear
- **AutoImageCashReceipt** - If true, cash receipts from cash payments auto save the image to the juror
- **AutoPrintCashReceipt** - If true, cash receipts from cash payments auto print

Added the following new rights:

- **IssueCheckPayment** - Users with this right can open/create/edit check payments
- **IssueCashPayment** - Users with this right can open/create/edit cash payments
- **VoidCheckPayment** - Users with this right can void check payments
- **UnVoidCheckPayment** - Users with this right can unvoid check payments

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

- **VoidCashPayment** - Users with this right can void cash payments
- **UnVoidCashPayment** - Users with this right can unvoid cash payments
- **CloseoutWorkspace** - Users with this right have access to the closeout screen
- **IsChiefCashiers** - Users with this right can perform supervisor closeouts

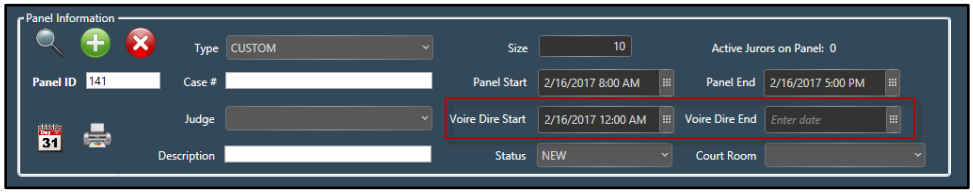

Requires Admin Configuration.

8898: Voire Dire Dates

Request Details: Users would like to be able to set the Voire Dire date separately from the Panel Date

Resolution: Added Voire Dire start and end date to the panel screen.

8904: Duplicate Button

Request Details: Admin tables need to have a way to easily make copies of rows.

Resolution: New "Duplicate" button added to admin tables. It copies the selected row to a new line for editing.

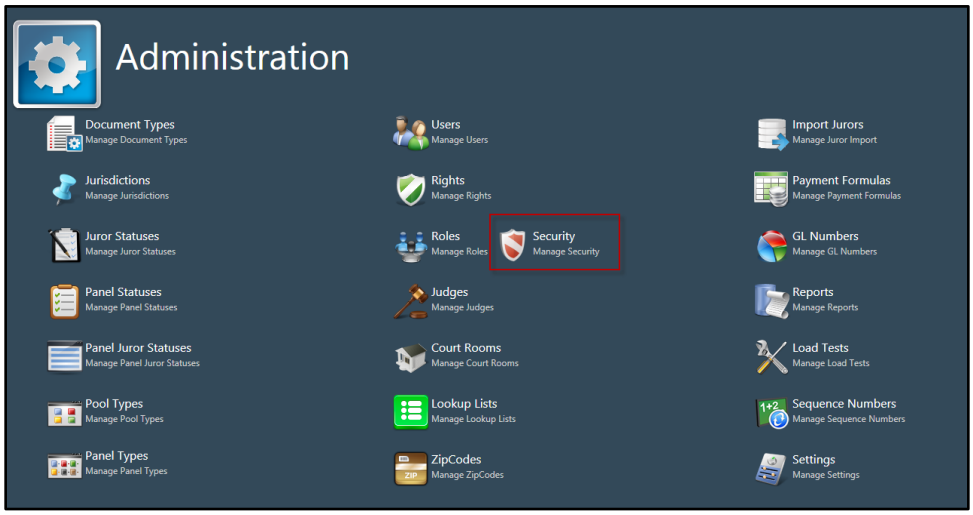

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

8908: Security Management

Request Details: Users would like a security management table.

Resolution: Added the **Security** screen to the admin workplace. This new screen can be used to add rights and roles to various users.

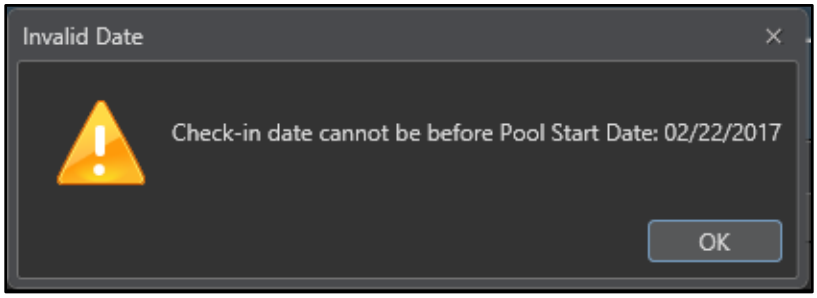

Requires Admin Configuration.

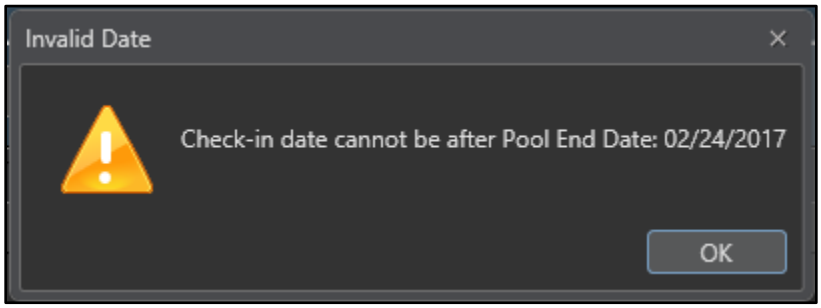

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

8912: Check-in Date

Request Details: Users should not be able to set the check-in date outside of the pool date range.

Resolution: Users are no longer able to set the check-in date outside of the pool date range.

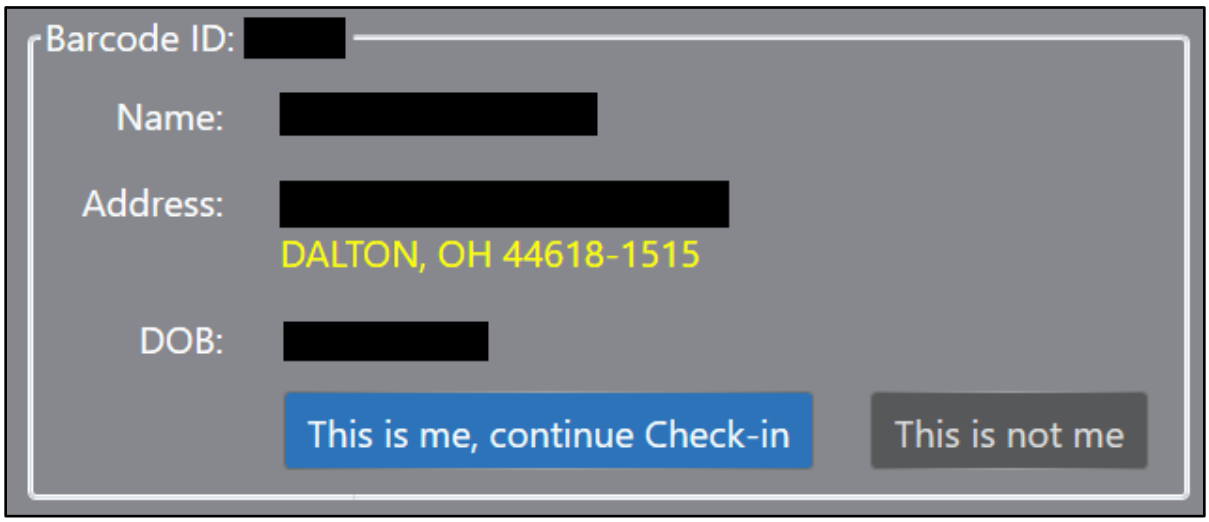

8936: Zip Code Formatting

Request Details: Full zip codes (greater than 5 digits) should be formatted appropriately when displayed in the kiosk.

Resolution: Formatting for long form zip codes implemented.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

8937: Change Kiosk Wording

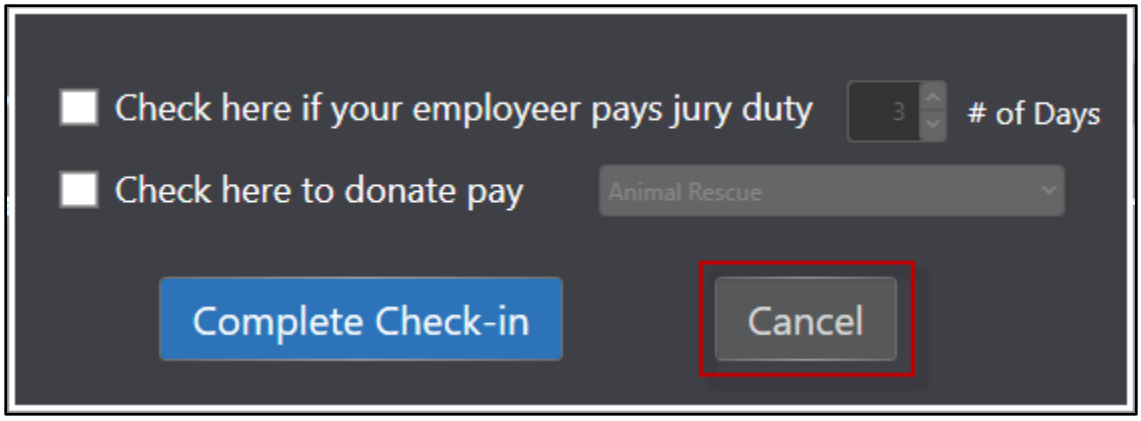

Request Details: From the Check In Kiosk, there must be a way for users to know that they should speak with the front desk if their address has changed.

Resolution: Message settings **CheckInMessage** and **CheckInNotMeMessage** allow for custom messages to be displayed depending on which response the user provides at the kiosk. With these, when users sign in, they will be to read that they should go to the counter if their address has changed.

8939: Cancel on Kiosk Interface

Request Details: When a user checks in on the Check In Kiosk screen and then hits cancel, they should be taken back to the screen with their check in information.

Resolution: Selecting cancel after a juror is found now simply goes back to the previous screen.

8966: Fail to Appear Triggers Resummon Flag

Request Details: The 'Resummoned' flag in the *PoolJuror* table should be set for a juror in a pool when that juror is excused via "fail to appear".

Resolution: A juror who is marked "fail to appear" will be flagged as resummoned when the juror is chosen for their second pool. If the "Pull from Rescheduled Jurors" checkbox is selected on the Pools workspace, jurors marked as fail to appear will be pulled from along with other jurors who have been excused for other reasons.

8967: Crystal Report Limit Reached

Request Details: Reports with a large amount of data to process should complete successfully without errors, even if the processing takes a great amount of time.

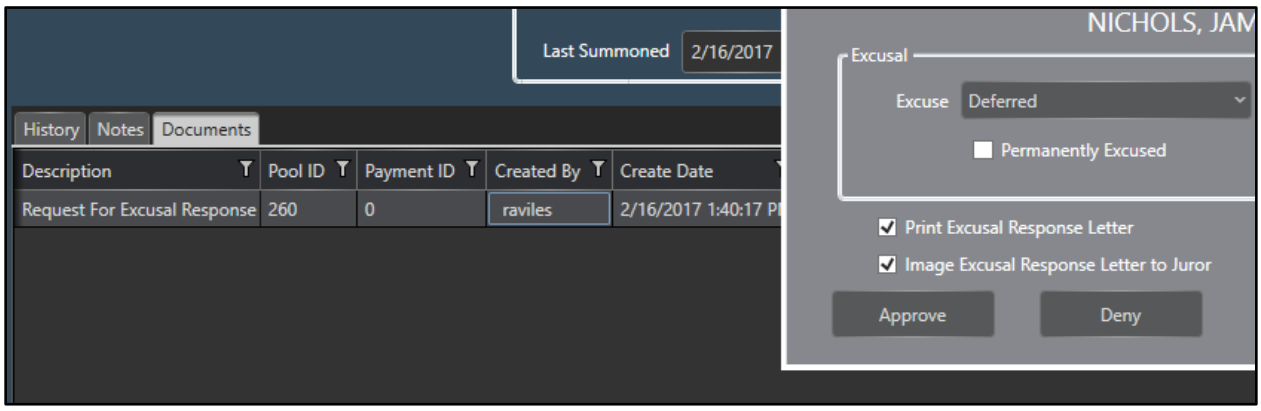

Resolution: The limit placed on reports for processing has been increased and users will no longer receive an error when processing large reports.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

8969: Image Excusal from Juror Workspace

Request Details: When excusals are approved and printed from the Juror workspace, the images should save to that juror's documents tab successfully.

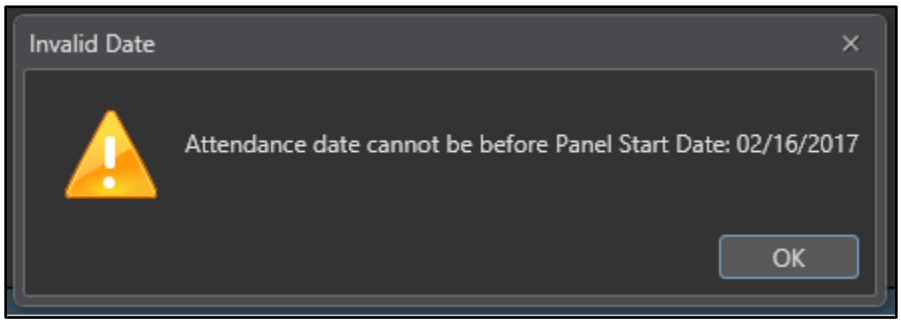

Resolution: Images generated for excusals on the juror workspace now save to the documents tab of that juror.

8970: Attendance Date Cannot Be Before the Panel Date

Request Details: Prevent the attendance date from being before the panel start date

Resolution: Added a check to stop the attendance date from being before the panel start date

8984: Default Search Ranges

Request Details: Depending on where users search from, date search ranges should be able to look back a certain amount of time by default. This default search date should be managed by settings.

Resolution: New settings **DefaultPoolSearchMonths**, **DefaultPanelSearchMonths**, and **DefaultPaymentSeachMonths** have been added. Each of them controls the date range a specific search will look back (in months).

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

8995: Kiosk Changes

Request Details: Charlotte County has requested a usability and aesthetic changes be made to the check-in kiosk.

Resolution: A handful of settings have been implemented in order to customize the appearance of the check-in kiosk. The settings are listed below:
ShowAltKioskView - shows alternative Kiosk Window
ShowOnlineCheckin - shows column in check in grid
KioskImageWidth - County Logo Width - default = 145
KioskImageHeight - County Logo Height - default = 145
KioskWindowBackColor - Screen Back Color - default = #01619A
KioskPanelBackColor - Group Boxes Back Color - default = #FF04263C
KioskPanelForeColor - Group Boxes Text Color - default = #FFFFFFFF
KioskJurorForeColor - Juror Info Text Color - default = #00FFFFFF

Note: Colors MUST be valid Hex Values or unknown results may occur.

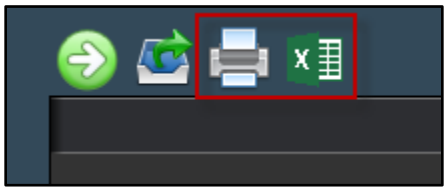

Requires Admin Configuration.

9020: Print Preview and Export to Excel

Request Details: Users would like the option to preview a report and to export a report to excel.

Resolution: Added new Print Preview and Export to Excel options to the top of the reports screen. The visibility of these options is controlled by new setting **ReportGridPrintPreview.** When this setting is equal to 1, both buttons will display. When this setting is equal to 0, they will not display.

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

9091: Prevent Excused Juror Check In

Request Details: Jurors who have been excused need to be prevented from checking in.

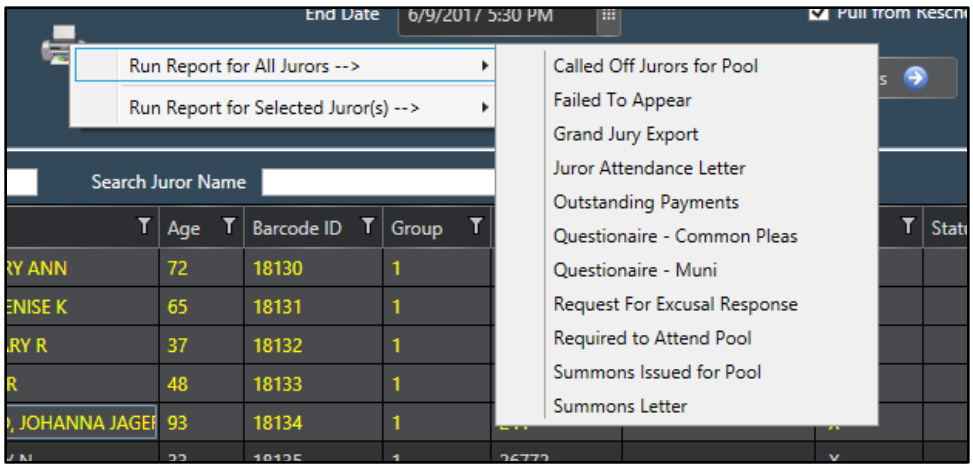

Resolution: New setting **CheckInExcuseValidation** has been added. It can contain several values which determine certain behaviors for how to handle jurors that attempt to check in when they have already been excused. 0 does not stop juror check in. 1 will warn the user and they can decide from there. 2 will prevent juror check in by default.

Requires Admin Configuration.

9353: Pass Multiple Jurors to Reports Module

Request Details: Users want the ability to pass multiple jurors to the reports module.

Resolution: Added ability to send multiple jurors to the reports module from the pool, check in, panel, attendance and payment screens.

9383: Exclude Jurors Already Placed in Pool

Request Details: Users would like a way to exclude jurors that have already been placed in a pool.

Resolution: Jurors that have been added to a pool will be excluded from new ones. New setting **PoolSummonedMonthsCheck** was added. When this setting is greater than 0, jurors that have been added to a pool for the given amount of months will be excluded from new pools.

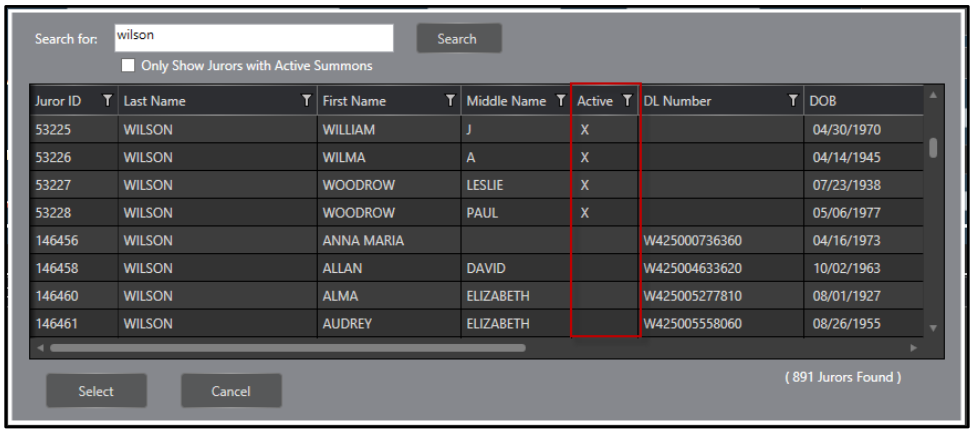

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

9449: Active Juror Column

Request Details: Users would like a way to see what jurors are active when performing a search on the Juror screen.

Resolution: Added new active column to the juror search screen

9465: Add Juror History to Multiple Jurors

Request Details: Users would like to add juror history to multiple jurors on the pool screen.

Resolution: Users can now add juror history to either all the jurors on the pool or selected jurors on the pool. Added new right **AddCustomHistory.** When this setting is greater than 0, jurors that have been added to a pool for the given amount of months will be excluded from new pools.

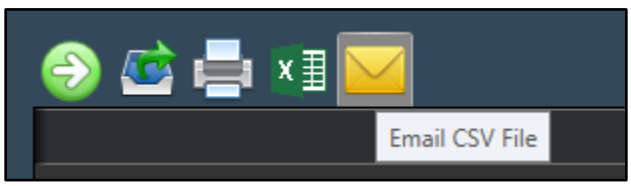

Requires Admin Configuration.

9469: Emailing Non-Crystal Reports

Request Details: Users would like the ability to email non-crystal reports.

Resolution: Added ability to email non-crystal reports as csv files.

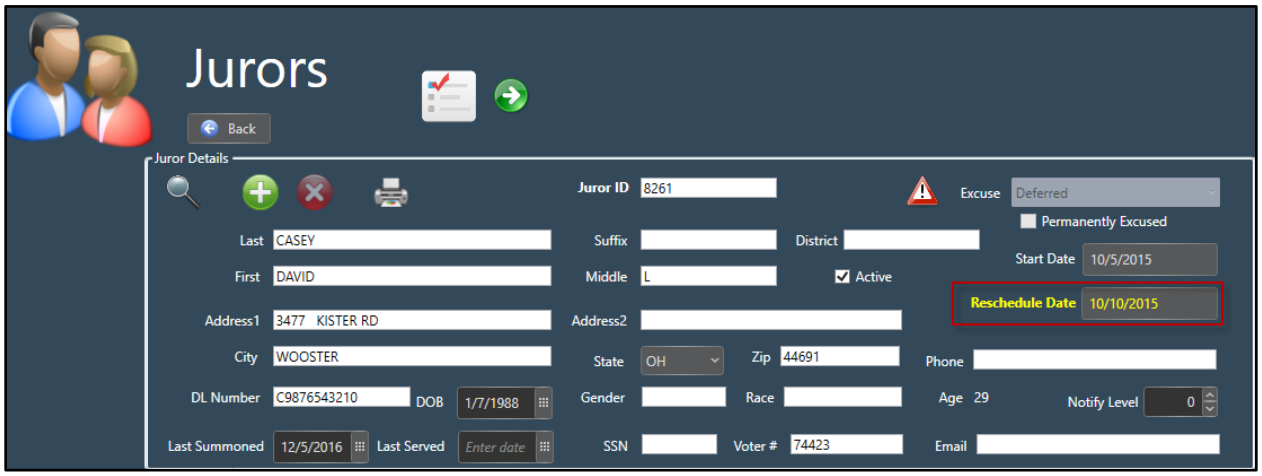

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

9546: Enhance Reschedule Screen

Request Details: A schedule date will be shown instead of an end date on Juror Excuse Screen.

Resolution: Added new setting **RescheduleSelectedOnlyDayPriorToPool** that determines if a reschedule date or end date will be shown on Juror Excuse Screen. If setting is set to true, a reschedule date will be shown; if setting is set to false, an end date will be shown.

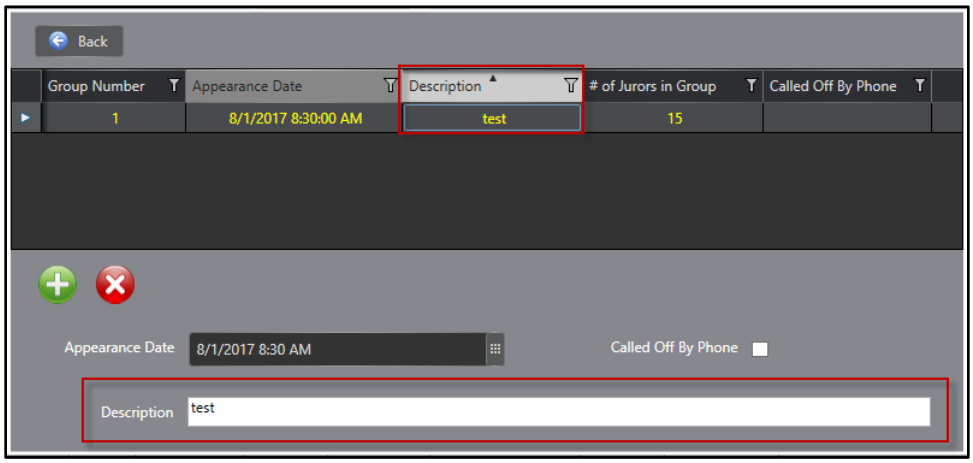

Requires Admin Configuration.

9551: Pool Group Descriptions

Request Details: Users would like descriptions to be added to pool groups.

Resolution: Descriptions have been added to pool groups.

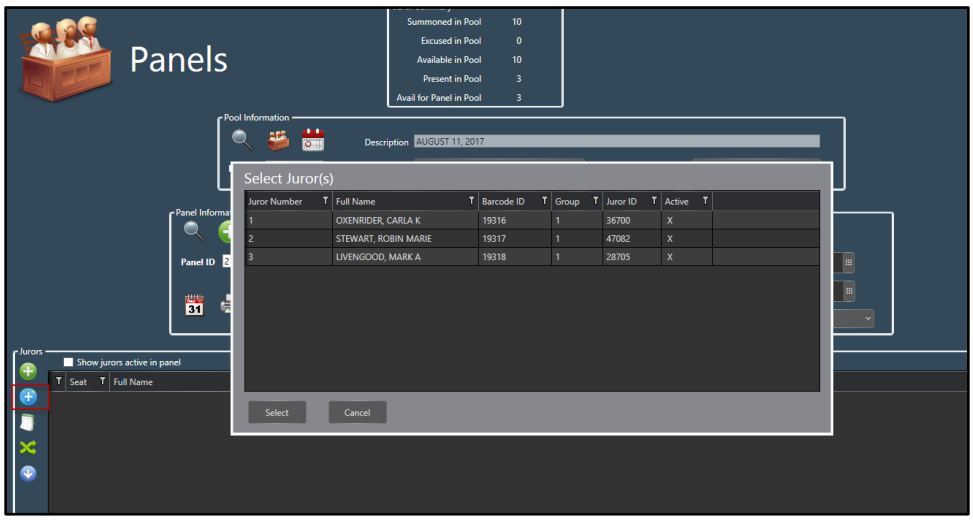

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

9574: Show Only Checked in Jurors on Panel

Request Details: Users would like only the jurors that have been checked in to be available to the panel screen.

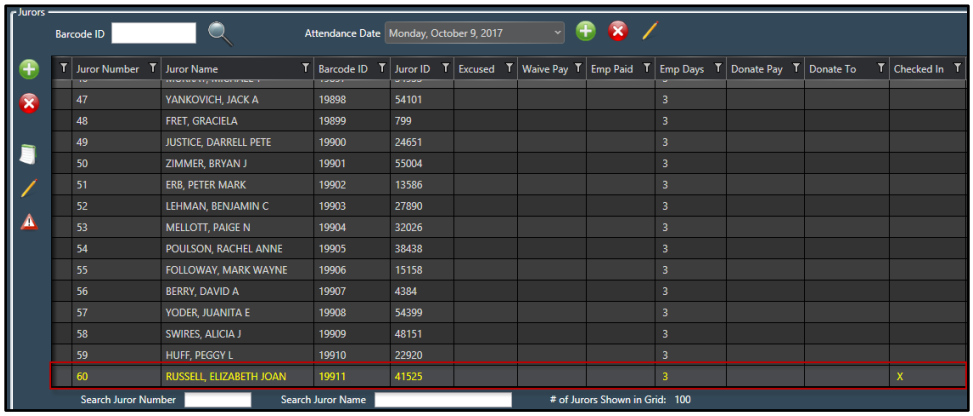

Resolution: When manually adding jurors to a panel, only jurors that have been checked in will be available.

9598: Juror Name Search on Check-In Workspace

Request Details: When searching for jurors on the check in screen, the focus should switch to the juror.

Resolution: Searching for a juror on the check in screen now shifts the focus to the juror and automatically checks them in.

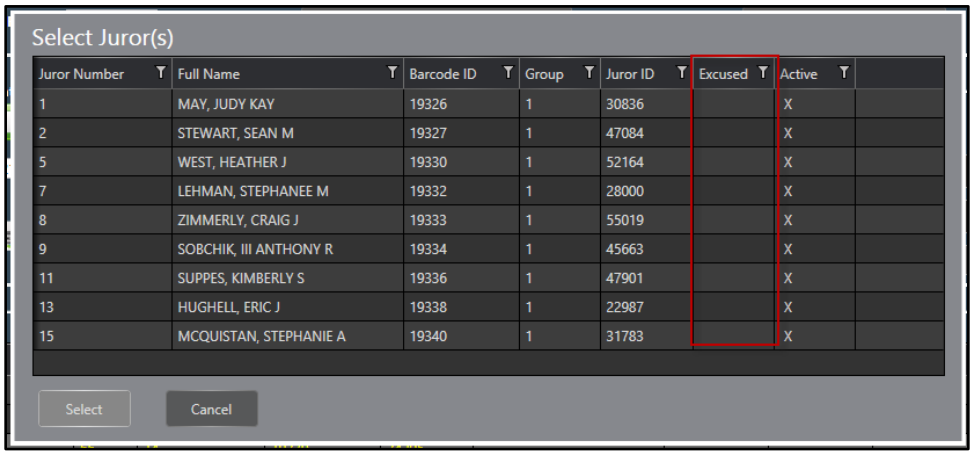

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

9625: Excuse Column in Panel Screen

Request Details: Users would like to see the excuse column on the select juror popup in the panel screen.

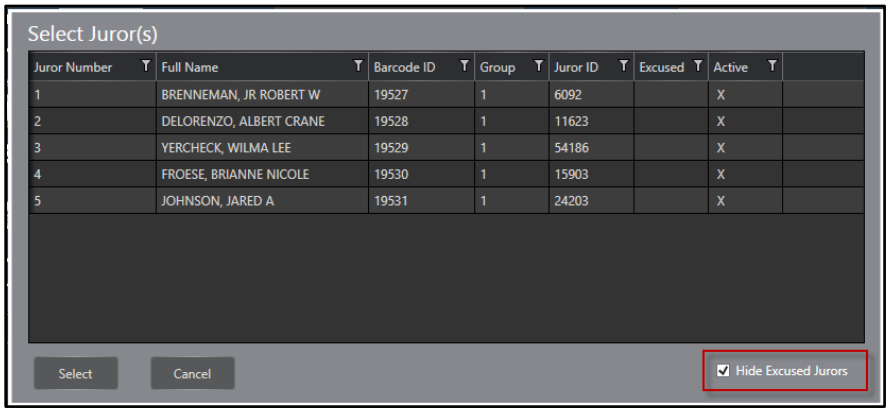

Resolution: The excuse column will now appear on the select juror popup on the panel screen

9626: Show Only Available Jurors

Request Details: Users would like excused jurors to be hidden from the manually add to panel screen.

Resolution: Added new Hide Excused Juror checkbox to the manually add to panel screen. Added new setting **DefaultHideExcusedJurors** to allow users to choose the default status of the box. When this setting is true, the box will be automatically checked and excused jurors will be hidden. When this setting is false, the box will be unchecked and excused jurors will appear.

Requires Admin Configuration.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.

9713: Prevents Jurors from being Paid Twice

Request Details: Jurors that have been checked in should not be able to be paid twice.

Resolution: Jurors can no longer be paid twice.

This document may contain confidential and/or proprietary information and is intended to be used only by licensed Jurymark users. Any use by others is strictly prohibited.
